PLAN YOUR ADVENTURE

KENTCOUNTY.COM/VISITORS

Dear Anglers,

Thank you for your interest in fishing in Maryland! The Department of Natural Resources (DNR) is here to help you plan your next angling adventure.

Maryland is known for world-class outdoor recreation opportunities. For local residents and for visitors to our state, this includes our unparalleled fishing destinations from the surf of the Atlantic Ocean to the still waters of Deep Creek Lake.

Maryland DNR offers numerous resources to help anglers maximize their fishing experience safely, legally, and successfully! Almost everything you need to know is in this guide and also on our website, dnr.maryland.gov.

DNR has been doing extensive work to inspire the next generation of anglers and diversify participation in recreational fishing through stakeholder engagement and development of a recruitment, retention, and reactivation (R3) plan. We are also reaching anglers through our increasingly popular Maryland Fishing Report which shares tips and observations on fishing conditions across the state. To increase convenience, it is now available on your Amazon Echo device—just ask Alexa to “open Maryland Fishing Report!”

Be sure to sign up for our free AccessDNR app to find all the fishing information you need, from the weekly Maryland Fishing Report to the most up-to-date regulations.

Maryland’s anglers play an important role in our efforts to protect fish, wildlife, and their habitats. By participating in the responsible stewardship of our fisheries and waterways, you are not just preserving a time-honored tradition, you are directly contributing to natural resources management. In fact, revenue from sport anglers provides funding for almost half of our fisheries-related programs in Maryland.

Thank you for your contributions and please enjoy a memorable year out on the water!

Brookfield
Renewable U.S.

LEGENDARY FISHING AWAITS!

SALMON RIVER, PULASKI NEW YORK

It only takes one light tackle hook-up for you to understand why they are called Steelhead.

Anglers from around the world will tell you that these underwater lightning bolts do more than steal your bait. By the time they have had their way with you, they'll have stolen your heart and soul. Whether heading upstream for a fall feeding frenzy or dropping back to Lake Ontario in the spring, these 5-10 lb. "chromers" will give you the freshwater fight that brings you back for more.

Let this be your year to experience the legendary waters of the Salmon River -- long regarded as one of North America's premier steelhead destinations!

Fishing Licenses and Fees

Fishing licenses, stamps and registrations are valid for 365 days from the date of purchase, unless otherwise specified.

Resident Nontidal Sport Fishing License	\$20.50
Resident 7-Day Nontidal Sport Fishing License	\$7.50
Resident Trout Stamp	\$5
Resident Chesapeake Bay and Coastal Sport Fishing License	\$15
Resident 7-Day Chesapeake Bay and Coastal Sport Fishing License	\$6
Resident Senior Consolidated Sport Fishing License	\$5
(65 years or older. License includes tidal, nontidal, and trout stamp. It may be purchased at any time in the calendar year in which you attain the age of 65)	
Non-Resident Nontidal Sport Fishing License	\$30.50*
Non-Resident 7-Day Nontidal Sport Fishing License	\$7.50*
Non-Resident 3-Day Nontidal Sport Fishing License	\$5*
*Or the same fee charged to visiting Maryland anglers by a non-resident's home state, whichever is higher— dnr.maryland.gov/pages/service_fishing_license.aspx	
Non-Resident Trout Stamp	\$10
Non-Resident Chesapeake Bay and Coastal Sport Fishing License	\$22.50
Non-Resident 7-Day Chesapeake Bay and Coastal Sport Fishing License .	\$12
Chesapeake Bay and Coastal Sport Boat License	\$50
1. Passengers onboard licensed boats do not need a license. However, they must have a free Maryland Saltwater Angler Registration (see below).	
2. An individual Chesapeake Bay and Coastal Sport Fishing License and a complimentary individual crabbing license are included for the person who purchases this license.	
Maryland Saltwater Angler Registration	Free
Unless individually licensed, an annual registration is required for:	
1. Passengers on boats with Chesapeake Bay and Coastal Sport Boat Licenses.	
2. Anglers fishing in designated License Free Fishing Areas.	
3. Waterfront property owners and family fishing on private property.	
4. Anglers in possession of a Virginia saltwater recreational fishing license or on a Virginia-licensed boat.	

Penalties

The department may suspend an individual's fishing license or privilege if that individual is convicted of, or pays a fine for, violating certain fishing rules. A full copy of suspendable fishing violations can be found in the Code of Maryland Regulations 08.02.13.05. To view this regulation, visit dsd.maryland.gov/regulations/Pages/default.aspx. Individuals who are suspended for violating fishing rules in Maryland may also be suspended in other states under the Interstate Wildlife Violator Compact.

BECOME A CHARTER BOAT GUIDE

Have you ever been interested in becoming a charter boat captain or fishing guide but not sure where to begin?

If you would like to become a guide or want to find out what to expect from your hired fishing guide go to dnr.maryland.gov/fisheries/pages/bass/guides.aspx

Who Needs a Trout Stamp?

A trout stamp is required for anyone 16 years of age or older to catch, attempt to catch or possess trout in nontidal waters.

How Do I Know Whether I Need a Tidal or Nontidal Maryland Fishing License?

To see whether the area you are fishing requires a tidal or nontidal fishing license, please see Tidal/Nontidal Dividing Lines section on page 34.

Maryland Saltwater Angler Registration Exemptions

Anglers fishing in the Atlantic Ocean, coastal bays, Chesapeake Bay or tidal tributaries must be registered with the state unless one of the following applies:

- You are under 16 years of age.
- You are fishing with a licensed fishing guide or from a licensed commercial fishing pier.
- You are fishing on a free fishing day—the first two Saturdays in June and July 4.
- You possess a valid commercial tidal fish license.
- You possess a Potomac River Fisheries Commission recreational fishing license.
- You possess a Chesapeake Bay and Coastal Sport Fishing License.

To Obtain a License or Saltwater Angler Registration:

Go to compass.dnr.maryland.gov/dnrcompass-portal, visit a Licensing and Registration Service Center or visit a license agent (select tackle shop or outdoor outfitter).

Purple Heart Recipient Discount

Any Maryland veteran who has received a Purple Heart for injuries sustained defending our nation qualifies for a 50 percent discount on Maryland hunting and fishing licenses.

Complimentary Licenses

A complimentary license is available to Maryland residents who are 100 percent service-connected disabled veterans or former prisoners of war. The license incorporates the nontidal angler's license, trout stamp and Bay and Coastal sport fishing license. Applicants must furnish a letter of disability or a letter of certification from the Veterans Administration with their initial application.

These licenses must be obtained at a Department of Natural Resources Service Center and cannot be obtained at independent retail locations. Locate your nearest Service Center by visiting dnr.maryland.gov/pages/service_centers.aspx.

A complimentary license is also available to residents and nonresidents who are blind.

License Exemptions

Statewide Sport Fishing License Exemptions

You may fish for finfish without a license if:

- You are under 16 years of age.
- You are a resident of Maryland, on active duty with Armed Forces, on leave with official orders.
- You fish on a free fishing day—the first two Saturdays in June and July 4.
- You fish in an area designated by Department of Natural Resources as a license free fishing area, and you have obtained a Maryland Saltwater Angler Registration (if required in that area). A list of license free fishing areas is available on page 13 and at dnr.maryland.gov/fisheries/pages/license-free.aspx.

Nontidal Sport Fishing License Exemptions

You may fish for finfish without a license in Maryland's nontidal waters if you are an owner or tenant, their spouse, child or the spouse of their child residing on the property and fishing from the property's riparian shoreline. Anglers should

confirm riparian ownership before fishing, as some impoundments and waterways are surrounded by buffers. In these areas, there are no riparian shoreline owners and fishing licenses are required. Anglers with riparian shorelines must comply with all fishing rules.

Trout Stamp Exemptions

A trout stamp is not required for possession of trout taken from privately owned lakes and ponds or licensed fee fishing lakes and ponds.

Tidal Sport Fishing License Exemptions

You may fish for finfish without a license in Maryland's tidal waters if:

- You possess a valid commercial fishing license.
- You are fishing from a licensed charter boat or licensed commercial fishing pier.
- You are fishing from a boat displaying a Chesapeake Bay and Coastal Sport Fishing Boat License and you have a Maryland Saltwater Angler Registration, unless otherwise exempt.
- You are an owner or tenant, their spouse, child or the spouse of their child residing on the property and fishing from the property's shoreline.
- Anglers should confirm riparian ownership before fishing. Anglers with riparian shorelines must comply with all fishing rules.

Contact Fishing and Boating Services for license exemption information concerning:

- An individual who attends, resides, or is under treatment by a state approved mental health facility
- A nonprofit organization that works with individuals with physical or mental disabilities
- A governmental entity or nonprofit organization that works with individuals with physical or mental disabilities who are serving or have served in the armed forces
- The primary caregiver or the representative for any of the above categories

8th Annual Kids Catch-All

RECIPROCAL LICENSES

Virginia

- A resident of Virginia possessing a valid Virginia nontidal fishing license issued in that resident's name may fish in nontidal waters of the mainstem of the Potomac River opposite the shore of Virginia.
- A resident of Maryland possessing a valid Maryland Nontidal Sport Fishing License issued in that person's name can fish from the Virginia banks of the Potomac River opposite the shore of Maryland without a Virginia fishing license.
- Any holder of a valid Virginia saltwater fishing license may fish in Maryland tidal waters, regardless of residency, so long as they have obtained a Maryland Saltwater Angler Registration.
- Any holder of a valid Maryland Chesapeake Bay and Coastal Sport Fishing License may fish in Virginia tidal saltwater, regardless of residency, so long as they have obtained a Virginia Saltwater Angler Registration.

West Virginia

- A resident of West Virginia possessing a valid West Virginia fishing license

issued in that resident's name may fish in nontidal waters of the Potomac River (mainstem only) opposite the shore of West Virginia, either from a boat or either shore, including the North Branch of the Potomac River and the Jennings Randolph Reservoir (opposite the shore of West Virginia).

- A resident of Maryland possessing a valid Maryland Nontidal Sport Fishing License issued in that resident's name may fish the West Virginia banks of the Potomac River, including the North Branch of the Potomac River and the Jennings Randolph Reservoir, without a West Virginia fishing license.

Pennsylvania

- A resident of Pennsylvania possessing a valid Pennsylvania fishing license issued in that resident's name may fish in the portions of the Conowingo and Youghiogheny reservoirs lying within the boundaries of Maryland without a Maryland fishing license.
- A resident of Maryland possessing a valid Maryland Nontidal Sport Fishing License issued in that resident's name may fish

on the portions of the Conowingo and Youghiogheny reservoirs lying within the boundaries of Pennsylvania without a Pennsylvania fishing license.

- Reciprocal fishing privileges extend from waters' edge to waters' edge. It does not include tributaries or fishing from shore.
- The Conowingo Reservoir extends from the Conowingo Dam in Maryland to Holtwood Dam in Pennsylvania. The Youghiogheny Reservoir extends from the red posts on the Youghiogheny River in Maryland downstream to Youghiogheny Dam in Pennsylvania.

Potomac River

- A Potomac River Fisheries Commission recreational fishing license holder may fish any portion of the tidal waters of Maryland.
- A valid Maryland Chesapeake Bay and Coastal Sport Fishing License holder may fish any portion of the Potomac River mainstem downstream of the I-95 /I-495 Woodrow Wilson Bridge.

RECREATIONAL CRABBING LICENSES AND CRAB POT REGISTRATION

Licenses and Fees

Crabbing licenses and registrations are valid for 365 days from the date of purchase/registration.

Maryland Resident	\$5
Non-Resident	\$10
Maryland Resident who possesses a Chesapeake Bay and Coastal Sport Fishing License or a Resident Senior Consolidated Sport Fishing License	\$2
Recreational Crabbing Boat License*	\$15
Waterfront Property Crab Pot Registration	Free

*Recreational Crabbing Boat License

A person that purchases a recreational crabbing boat license receives a decal that must be attached to their boat. When the decal is attached to the boat the individuals on the boat do not need to be licensed to catch crabs. The decal allows the use of gear (trotlines and collapsible traps or net rings) that would otherwise require a separate recreational crabbing license. The decal is equivalent to one recreational crabbing license. See the licensed boat limits on page 40. The person who purchases the boat license is issued an individual crabbing license that can be used when the individual is not on their boat.

Who Needs A Maryland Recreational Crabbing License?

Anyone who uses the following gear:

- Collapsible crab traps
- Eel pots for own bait
- Net Rings
- Seines
- Trotline

Additionally, anyone who uses other legal gear to catch more than the following quantity of crabs:

- More than 24 with a limit of one bushel of male hard crabs
- More than 12 with a limit of 24 soft crabs or male peelers

Crabbing License Exemptions

You do not need a license if you are using the following gear:

- Handlines
- Dip nets

If you are crabbing without a license using license-exempt gear, you are still limited to the unlicensed crabber limits of no more than 24 male hard crabs and no more than 12 soft crabs or male peeler crabs.

You also do not need a license if you are:

- Assisting another individual who has a recreational crabbing license
- Crabbing from a boat that is displaying a recreational crabbing boat decal

Waterfront Property Crab Pot Registration - Annual

An owner, lessee, or tenant of a private shoreline property may use a maximum of two crab pots, regardless of the number of owners or lessees of the property, and must annually register with the department. The registration is free and it does NOT count as a recreational crabbing license.

A license is not needed to use properly registered crab pots; however, you are limited to the unlicensed crabber limits. See pages 40 and 41 for details.

Private property crab pots set in the Atlantic Ocean, coastal bays and their tributaries do NOT need to be registered, but must be marked with the owner's name and address.

See page 40 and 41 for crab catch limits.

A recreational crabbing license is not required in the Atlantic Ocean, coastal bays, and their tributaries.

LICENSE FREE FISHING AREAS

Maryland features many areas where recreational anglers can fish year-round without a fishing license. When fishing in these areas you are exempt from all license and stamp fees and requirements. You are required to observe all other fishing rules. A free MD/PRFC angler registration is also required for anglers fishing without a license in designated license free fishing areas located in tidal water, you may register online through the Maryland licensing system.

ANNE ARUNDEL	• Annapolis—MD Route 450 old bridge at the Severn River.
BALTIMORE COUNTY	• Cox's Point on Back River and Deep Creek. Directions: Eastern Blvd. (Rt. 150) to Riverside Drive south.
BALTIMORE CITY	• Canton Recreational Pier at Boston Street • Middle Branch Park from fishing pier south of the Hanover-Pottee Street Bridges, to Hanover Street Bridge over Middle Branch. Directions: Route 2 to Middle Branch Park • Canton Waterfront Park
CAROLINE COUNTY	• Denton—Pier associated with G. Daniel Crouse Memorial Park on the east side of Choptank River north of MD Route 404 Bridge. • Federalsburg Municipal Park • Greensboro Waterfront Park — Upstream of the Sunset Avenue bridge within park boundaries on the Choptank River.
CECIL COUNTY	• Charlestown—Town-owned stone wharf on the Northeast River near the corner of Conestoga and Water Streets and the historic site of Charlestown Wharf. • North East—North East Community Park at mouth of North East Creek. • Perryville Ice House Park—Within the park boundaries of Ice House Park downstream of the Route 40 bridge on the Susquehanna River.
CHARLES COUNTY	• Friendship Landing—County-owned pier and property adjacent to the pier off Friendship Landing Road southeast of Ironsides Riverside Road (Rt. 425) on Nanjemoy Creek.

LICENSE FREE FISHING AREAS

DORCHESTER COUNTY	• Cambridge—Long Wharf from south end of city-owned bulkhead associated with the Municipal Yacht Basin within Cambridge Creek to the end of east breakwater at mouth of the Municipal Yacht Basin.
FREDERICK COUNTY	• Gambrill State Park—Banks of the one acre pond located within Gambrill State Park boundaries, near the Park's campground. (Angler registration not required at this location.)
HARFORD COUNTY	• Havre de Grace—Tydings Memorial Park within designated area, and pier at the end of Congress Street.
KENT COUNTY	• Chestertown—MD Route 213 Bridge over Chester River.
SOMERSET COUNTY	• Crisfield City Dock—City dock/depot area at the end of West Main Street. • Janes Island State Park—Bulkhead area on Daugherty Creek within the boundaries of Janes Island State Park.
WICOMICO COUNTY	• Sharptown—Pier and town dock off Ferry Street on the Nanticoke River. • Salisbury—Designated city-owned bulkhead on the Wicomico River between Mill Street and Division Street. • Tyaskin Park—County-owned park on Wetipquin Creek west of Rt. 349 at Tyaskin.
WORCESTER COUNTY	• Pocomoke City—City docks from Laurel Street boat ramp to US Route 13 overpass and Winter Quarter dock on Pocomoke River. • Snow Hill—All city-owned riverfront property which includes Byrd Park, Sturgis Park, and city bulkheading adjacent to the municipal parking lot near the Route 12 bridge over the Pocomoke River. • Ocean City—Northside Park—Town-owned pier and park at 125th Street. • Ocean City—Chicago Avenue—Bulkhead between 2nd and 4th Streets.

GENERAL FISHING DEFINITIONS

GENERAL DEFINITIONS AND ABBREVIATIONS

ARTIFICIAL FLY

A lure constructed by winding natural or synthetic material such as feathers, fur, hair, tinsel, thread, fiber, wire, plastic, cork, or rubber on or around the hook, and designed to be cast by means of a fly rod.

ARTIFICIAL LURE

The following are considered artificial lures: spinners, spoons, plugs and molded facsimiles of worms, insects and fish. For the purposes of these regulations, artificial flies and streamers are considered to be artificial lures.

BAIT

Any item that emits an odor or scent such as worms, minnows, crayfish, insects, and food items. The addition of any scent to an artificial lure or fly to make it smell like bait, makes it bait.

BLACK BASS

Refers to both largemouth and smallmouth bass.

CATCH

Catch means to take, kill, trap, gather, harvest or in any manner reduce any fish to personal possession.

CHUMMING (INCLUDES CHUNKING)

Placing fish, parts of fish, or other natural or manmade attractants upon which fish might feed, in the water, not attached to a hook, for the purpose of attracting fish to a particular area so that they might be caught.

CIRCLE HOOK

A non-offset hook with the point turned perpendicularly back to the shank. Circle hooks used in bait fisheries should be non-offset. That is, if the hook is laid on a flat surface, all parts of the hook lie flat on the surface.

CULL

After being in possession of a fish, to discard or exchange that fish to possess another fish of the same species.

DAILY CREEL

Daily creel is the number of fish that an angler can keep after a single day of fishing.

EEZ

The U.S. Exclusive Economic Zone is where the U.S. federal government has jurisdiction over natural resources. It begins at 3 nautical miles and extends to 200 nautical miles from the Maryland coast.

IN AGGREGATE

A catch of related fish species counted together.

LIVE-LINING

Using a live finfish on a hook for the purpose of catching other fish with hook and line, rod and reel, or handlines.

POSSESSION

Any condition where a fish is controlled with the angler's intent of ownership. Possession limit is the maximum number of fish that an angler may have in their possession after two or more days of fishing.

STINGER HOOK

A hook which trails another hook or hook unit, either by direct physical attachment to the lead hook or hook unit, or by a connective device such as a line, swivel or chain, and is part of the same bait or lure.

TROLLING

The method of angling during which fish are attracted to a lure or bait being trailed from a boat which is moving forward or backward by mechanical, manual or wind power.

BASIC CATCH AND RELEASE FISH HANDLING TIPS

HANDLING

- Don't hold the fish out of the water for more than 30 seconds.
- Wet hands and hold fish by lip with one hand and support its body with the other hand.
- Hold fish over water in case it is dropped.
- For videos about safe handling, care and proper catch-and-release techniques visit dnr.maryland.gov/fisheries/pages/bass/videos.aspx

DE-HOOKING

- When removing the hook, use a soft rubber or small-mesh nylon landing net to hold fish, or firmly hold the fish with a wet rag or glove.
- Use a non-offset circle hook when live-lining or chumming to reduce the potential for deep-hooking the fish.

- Use barbless hooks with artificial bait. Barbs can be pinched down with pliers or filed off.
- Always have pliers, a de-hooker or hemostats handy for deeply hooked fish.
- If the hook cannot be removed from a deep or gut hooked fish without causing bleeding to the fish, then leave the hook in and cut the line as close to the mouth as possible.

RESUSCITATION

- Try reviving a fish that is not lively by opening its mouth and pulling it forward to force water over the gills.
- Additional information is available at dnr.maryland.gov/fisheries/pages/catch-and-release.aspx

See page 44 for shark release recommendations.

BOWFISHING

BOWFISHING AT NIGHT?

Please remember...

- Do not shine lights into homes at night.
- Ask permission to shoot when within 100 yards of another person or vessel.
- Obey noise ordinances.

LEGAL EQUIPMENT

- Compound Bow
- Recurve Bow
- Crossbow

DON'T SHOOT

- Largemouth Bass
- Smallmouth Bass
- Striped Bass
- Trout
- Walleye
- Northern Pike
- Muskellunge
- Snapping Turtles
- Sturgeon
- Hickory or American Shad
- River Herring
- Sharks

LEGALLY HUNTED

FISH INCLUDE

- Northern Snakehead
- Blue Catfish
- Channel Catfish
- Flathead Catfish
- Goldfish
- Common Carp
- Longnose Gar
- Sunfish
- Gizzard Shad

WITHOUT PERMISSION IT'S ILLEGAL TO SHOOT WITHIN 100 YARDS OF

- a human being
- an international diving flag
- an occupied duck blind
- another vessel
- a private or public swimming area

SPORT FISHING REGULATIONS

RECREATIONAL GEAR—NONTIDAL

These are the **ONLY** types of gear you may use in nontidal waters

GEAR	RULES AND EXCEPTIONS
BAIT TRAPS	<ul style="list-style-type: none"> • Must be marked with the individual's name and address or DNRid number • Must be checked daily • Unless attached to a boat that is not docked, must be set within 100 feet of the shore and either be attached to the property/private pier/dock or marked by a buoy or pole with a sign • If set on public property, must be set within 100 feet of the owner • If set on private property, must have permission of the landowner • May not be used in any trout management area • Only one may be used by each individual
HOOK AND LINE, ROD AND REEL AND HANDLINES	<ul style="list-style-type: none"> • Individual must be actively in control of the gear • Snagging is not legal • May use up to 3 active lines at a time • May not use more than 2 hook units per line • When ice fishing, 5 tip ups or rods may be used
NETS (general rules that apply to seines, dip nets and landing nets)	<ul style="list-style-type: none"> • May not bait nets • Except for landing nets, nets may not be used in any Trout Management Area • A non-resident may only use landing nets
SEINES	<ul style="list-style-type: none"> • Must have mesh no greater than ¼ inch • Must not exceed 6 feet in width and 4 feet in height • Must only be used to catch minnows and bait fish • May not be used within 50 feet of a dam or the mouth of any river or tributary • Must be emptied on shore
DIP NETS	<ul style="list-style-type: none"> • May only be used in areas of the Potomac River, Monocacy River and Conococheague Creek that lie within Allegany, Carroll, Frederick and Washington counties • May only be used to catch carp, catfish, Northern snakehead, or suckers • May not be used in any other area or to catch any other species
LANDING NETS	May only be used to land a fish caught by other means
BOW, GIG, SPEAR AND SPEAR GUN	<ul style="list-style-type: none"> • Must have a retrieval line attached • May not use projectile gear in any trout management area, or state-controlled community ponds or lakes • May not be used within 100 yards of any human being, private or public swimming area, international diving flag, occupied duck blind, or vessel other than the vessel occupied by the individual using the projectile gear • The distance restrictions will not apply if the individual receives permission from the affected parties prior to using the projectile gear • May not be used to fish for any trout species, walleye, striped bass, striped bass hybrids, northern pike, muskellunge, or muskellunge hybrids including tiger musky, largemouth and smallmouth bass, snapping turtles and any threatened or endangered species
HAND AND NOODLING	No special rules

Nontidal Sport Fishing

It Is Illegal

- To cut a hole through the ice measuring more than 10 inches in any direction for the purpose of ice fishing.
- To take bait fish from Put-and-Take Fishing Areas or Special Trout Fisheries Management Areas.
- In Deer and Swan creeks in Harford County:
 - For a person to catch or attempt to catch fish other than by hook and line, with line held in hand, attached to a pole or rod held in hand, or attended in a manner that the fish voluntarily takes bait or lure in its mouth.
 - For a person to possess or use minnows for bait while fishing.
 - For anyone to use a dip net baited by attaching an attractant to the net material or frame.
- To remove the head and tail of fish in possession while at the fishing location, except for snakeheads. The head and tail shall remain attached in such a manner as to permit identification of fish species and total length.
- For a person to catch snapping turtles from nontidal waters of the state by hook and line, trotline, bow and arrow, net, seine, trap, fish pot, or other fishing rig, spear, gig or iron or any device capable of piercing any part of the turtle.
- To operate any vehicle on any lands owned or controlled by the Maryland Department of Natural Resources without written permission from the department except on those roads, lanes or areas which are open to automobile traffic or which are specifically marked by the department.
- To camp on lands owned and controlled by the department except on designated sites or with written permission.
- To swim in any State-controlled lake except in designated areas.
- In the Battie Mixon Fishing Hole:
 - To fish between one hour after sunset and one hour before sunrise.
 - To use boats propelled by gasoline or diesel power.
- To fish any streams or nontidal waters that contain trout between the hours of 10 p.m. and 5:30 a.m. (This does not apply to nontidal impoundments of five acres or more.)
- To cull trout.
- Regarding crayfish in the Susquehanna River, Middle Potomac River, Monocacy River and Upper Potomac River basins, it is illegal to:
 - Catch or process any species of crayfish unless the head is immediately removed behind the eyes upon capture.
 - Use any species of crayfish as bait unless the head is removed behind the eyes.
 - Catch and possess a female crayfish with eggs attached to the underside of the abdomen.
- To introduce/stock any aquatic species into any Maryland waterbody, except baitfish on a hook for the purpose of fishing, without first obtaining a pond stocking permit through the department.

RULES ARE SUBJECT TO CHANGE

Please check the Maryland Department of Natural Resources Fishing and Boating Services regulations page for possible changes at dnr.maryland.gov/fisheries/pages/regulations/changes.aspx

RECREATIONAL GEAR—TIDAL

These are the **ONLY** types of gear you may use in tidal waters

GEAR	RULES AND EXCEPTIONS
BAIT TRAPS	<ul style="list-style-type: none"> • Must be marked with the individual's name and address or DNRid number • Must be checked daily • Unless attached to a boat that is not docked, must be set within 100 feet of the shore and either be attached to the property/private pier/dock or marked by a buoy or pole with a sign • If set on public property, must be set within 100 feet of the owner • If set on private property, must have permission of the landowner • Only one may be used by each individual
HOOK AND LINE, ROD AND REEL AND HANDLINES	<ul style="list-style-type: none"> • Individual must be actively in control of the gear • Snagging is not legal • May not use more than two hook units per line • When chumming or live-lining, anglers in the Chesapeake Bay or its tidal tributaries must use a non-offset circle hook. • May 1–December 31: Anglers in the Chesapeake Bay or its tidal tributaries must use non-offset circle hooks or J hooks when using fish, crabs or worms as bait or when using processed baits • When fishing for striped bass in any tidal waters and using fish, crabs, or worms as bait, or processed bait, anglers use a non-offset circle hook.
JUGS	<ul style="list-style-type: none"> • May only be used in tidal tributaries of the Chesapeake Bay • May only be used from July 1–February 28 • Must be attended between sunset and sunrise • May use up to 10 jugs with no more than 2 hooks per line and no more than one line per jug • Must be marked with the individual's DNRid number • May not be used to take largemouth bass, smallmouth bass, striped bass, all shark species, snapping turtles and any threatened or endangered species
NETS (general rules for allowable nets, including dip nets)	<p>May not bait nets</p> <p>Nets are prohibited in certain county waters at certain times of year. Call 410-260-8300 or 800-688-3467 for more information.</p>
CAST NETS	Radius may not exceed 10 feet
SEINES	<ul style="list-style-type: none"> • Must have mesh no greater than ¼ inch • Must not exceed 50 feet in width and 5 feet in height • Must only be used to catch minnows and bait fish • May not be used within 50 feet of a dam or the mouth of any river or tributary • May not be emptied from a boat or on the shore or in water less than 12 inches deep
LANDING NETS	May only be used to land fish caught by other means
BOW, GIG, SPEAR AND SPEAR GUN	<ul style="list-style-type: none"> • Must have a retrieval line attached, except for gigs • A gig must be propelled by hand • May not be used within 100 yards of any human being, private or public swimming area, international diving flag, occupied duck blind, or vessel other than the vessel occupied by the individual using the projectile gear • The distance restrictions will not apply if the individual receives permission from the affected parties prior to using the projectile gear • May not be used to fish for any trout species, walleye, striped bass, striped bass hybrids, northern pike, muskellunge, or muskellunge hybrids including tiger musky, largemouth and smallmouth bass, snapping turtles, all shark species, lobster and any threatened or endangered species
HAND AND NOODLING	No special rules

Tidal Sport Fishing

Chesapeake Bay and tributaries and Atlantic Ocean, coastal bays and tributaries

It is Legal

1. To keep any size white perch if caught by hook and line.
2. To use an umbrella rig that has no more than two hooks or two sets of hooks.
3. To catch and release alewife herring, American shad, blueback herring, hickory shad, and sharks.

It is Illegal

1. To have in one's possession aboard any boat on the tidal waters of Maryland any striped bass cut up or filleted at any time. Striped bass must be landed whole.
2. To have in one's possession aboard any boat on the tidal waters of Maryland more than 15 pounds of any fish for which a size or weight limit is prescribed by law or regulation in a condition that the size or weight of the fish cannot be determined.
3. To use Sabiki rigs or mackerel trees in Maryland. (Multiple hook rigs including Sabiki rigs and mackerel trees are allowed in the Exclusive Economic Zone of the Atlantic Ocean.)
4. To operate a boat within the area 400 yards below or 400 yards above the Conowingo Dam.

Towns such as Ocean City may have special fishing ordinances. Be sure to check local jurisdictions' websites for restrictions.

INFORMACIÓN IMPORTANTE EN ESPAÑOL

dnr.maryland.gov/fisheries/espanol

STATEWIDE RESTRICTIONS

IT IS ILLEGAL

- To buy, sell, or offer to buy any fish or crab harvested under a recreational license.
- To use waders or boots soled with felt or any natural or synthetic porous material capable of absorbing liquid.
- To disturb, take, destroy or possess the nest or eggs of a terrapin or snapping turtle.

RULES ARE SUBJECT TO CHANGE

Please check the Maryland Department of Natural Resources Fishing and Boating Services regulations page for possible changes and for opportunities to provide comments at dnr.maryland.gov/fisheries/pages/regulations/changes.aspx

SEASONS, MINIMUM SIZES, DAILY CREEL AND POSSESSION LIMITS

The following tables summarize rules governing the harvest and possession of fish species that anglers commonly catch in Maryland. This summary does not include all regulated species. Full information and updates are available at dsd.state.md.us/comar/comarhome.html

NONTIDAL

NONTIDAL					
SPECIES	MINIMUM SIZE LIMITS		SEASON	CREEL LIMIT	REMARKS
AMERICAN EEL	9 inches		Open Year Round	Daily—25 Possession—25	
BAITFISH (Including Madtoms)	None		Open Year Round	Daily—35 in aggregate Possession—35 in aggregate	
BASS (Largemouth and Smallmouth)	12 inches or as provided for by special regulations.		CLOSED March 1–June 15	Daily—5 in aggregate Possession—10 in aggregate	Catch and Release is permitted at all times.
CARP	None		Open Year Round	Daily—15 Possession—30	
CHAIN PICKEREL	14 inches		Open Year Round	Daily—5 Possession—10	
CHANNEL CATFISH	None		Open Year Round	Daily—5 Possession—10	
CRAPPIE	None		Open Year Round	Daily—15 Possession—30	
HERRING (Alewife and Blueback)			CLOSED		Catch and Release is permitted at all times.
MUSKELLUNGE AND TIGER MUSKIE	36 inches		Open Year Round	Daily—1 Possession—2	
NORTHERN PIKE	30 inches		Open Year Round	Daily—2 Possession—4	
SHAD (American/White and Hickory)			CLOSED		Catch and Release is permitted at all times.
STRIPED BASS and HYBRID STRIPED BASS (lakes and ponds)	18 inches		Open Year Round	2 striped bass/hybrid striped bass per day, only one of which may be over 30 inches. Possession—4, only one of which may be over 30 inches	It is illegal to keep striped bass and hybrid striped bass caught in nontidal streams and rivers.
SUCKERS	None		Open Year Round	Daily—30 Possession—60	
SUNFISH, including Bluegills and Rock Bass (commonly known as Red Eye or Goggle-Eye)	None		Open Year Round	Daily—15 in aggregate Possession—30 in aggregate	
TROUT—statewide (all species of trout)	None		Open Year Round	Daily—2 in aggregate Possession—4 in aggregate	Different rules apply for Put-and-Take Areas and Special Trout Management Areas. See pages 22–26.
WALLEYE	Minimum Size: 15 inches year round, and during January 1–April 15 the minimum size is 15 inches with a maximum size of 20 inches, in the Potomac River mainstem approximately 0.5 miles upriver from Chain Bridge to the spillway in Cumberland.		Open year round— Except on Deep Creek Lake and the Youghiogheny River downstream of Route 42 bridge where it is closed from March 1 through April 15.	Daily—5 Possession—10	
WHITE PERCH	None		Open Year Round	None	
YELLOW PERCH	Nontidal rivers and streams	9 inches	Open Year Round	Daily—10 Possession—20	The possession of yellow perch eggs requires prior authorization from the department.
	Nontidal lakes and ponds	None			
ATLANTIC STURGEON, SHORTNOSE STURGEON, AND BIVALVES/SHELLFISH	CLOSED				

Special Closures:

1. Magothy River from the base of Lake Waterford Dam downstream for 3,300 feet is closed to all fishing during February, March and April.
2. Severn River and Severn Run from the Route 3 Bridge downstream for 2,400 feet during February, March and April.

Contact Information for Restricted Areas: **Baltimore City Reservoirs**—for Prettyboy and Liberty (boat permits required) information, rules, and regulations, call 410-795-6150. For Loch Raven call 410-887-7692. **Washington Suburban Sanitary Commission Lakes**—Triadelphia and Rocky Gorge fishing by permit only. For permits, rules and regulations call the information center at Brighton Dam 301-774-9124.

WEAKFISH	13 inches	Open Year Round	Daily—1	
WHITE PERCH	None if caught with hook and line; 8 inch minimum if caught with other gear	Open Year Round	None	
YELLOW PERCH	9 inches	Open Year Round	Daily—10	
ALEWIFE HERRING, AMERICAN SHAD, ATLANTIC STURGEON, BLUEBACK HERRING, HICKORY SHAD AND SHORTNOSE STURGEON	CLOSED			

Areas Closed to Fishing—Feb, March and April:

1. Magothy River from Lake Waterford dam downstream for 3,300 feet.
2. Severn River and Severn Run from the Route 3 Bridge downstream for 2,400 feet.

HOW TO MEASURE A FISH

Size limits are generally based on the total length of a fish. The total length of a fish is the maximum length with the mouth closed and the tail pinched together measured from the snout to the tip of the tail. The best way to obtain this straight line measurement is to push the fish's snout against a vertical surface with the mouth closed and with the fish lying along a tape measure and then pinch the tail fin closed to determine the total length.

Fork length refers to the length from the snout of a fish to the end of the middle caudal fin rays. This is the measurement for determining the legal size of a shark.

The girth of a fish is best measured with a fabric ruler. Measuring the girth is helpful in trying to determine if you have a possible record fish, which is determined by total weight. By using the total length and girth of a fish in inches you can get a rough estimate of the weight in pounds with this formula:

$$((\text{Girth in inches} \times \text{Girth in inches}) \times \text{Length in inches}) / 800 = \text{Approximate weight in pounds}$$

SEASONS, MINIMUM SIZES, DAILY CREEL AND POSSESSION LIMITS

ATLANTIC OCEAN, COASTAL BAYS AND TRIBUTARIES

AMERICAN EEL	9 inches	January 1–August 31, except open year round for spears and baited traps or pots	Daily—25	
BLACK DRUM	16 inches	Open Year Round	Daily—1 Boat limit—6	
BLACK SEA BASS	See Online Guide			
BLUEFISH	8 inches	Open Year Round	Shore or Private Boat: Daily—3 For-Hire Boat: Daily—5	
COBIA	40 inches	June 15–September 15	1 cobia per person per day; or up to 2 cobia per vessel per day if there are 2 or more individuals on the vessel	
CROAKER (Hardhead)	9 inches	Open Year Round	Daily—25	
DOLPHINFISH (Mahi-Mahi)*	None	Open Year Round	Daily—10 Boat limit—54	Only applies to federal waters.
GROUPER SPECIES	None	Open Year Round	Daily—1	Grouper species— www.dsd.state.md.us/comar/getfile.aspx?file=08.02.05.29.htm
LOBSTER	3½–5¼ inches carapace length	CLOSED Feb. 1–March 31	100/person/24 hour period or 500 for a 5-day or longer trip when using gear other than lobster traps	Must be landed whole. Sparring is prohibited. No egg-bearing females.
RED DRUM (Channel Bass or Puppy Drum)	18–27 inches	Open Year Round	Daily—1	
SCUP (Porgy)	9 inches	Open Year Round	Daily—50	
SHARKS	See Highly Migratory Species Section, page 44			
SHEEPSHEAD	None	Open Year Round	Daily—4	
SHRIMP (brown, white)	None	Open Year Round	None	Must use authorized gear.
SNAPPER SPECIES (includes many species, please see list)	None	Open Year Round	Daily—20	Snapper species— www.dsd.state.md.us/comar/getfile.aspx?file=08.02.05.29.htm
SPANISH MACKEREL*	14 inches	Open Year Round	Daily—15	
SPOT	None	Open Year Round	Daily—50	
SPOTTED SEATROUT	14 inches	Open Year Round	Daily—4	
STRIPED BASS	See Atlantic Striped Bass Section—Page 39			
SUMMER FLOUNDER (Fluke)	16 inches	Open Year Round	Daily—4	To maximize summer flounder survivability, use a 3/0 or larger hook and be prepared to release undersized fish (pliers, wet rag, and a ruler).
TAUTOG	16 inches	CLOSED May 16–June 30	January 1–May 15: Daily—4 July 1–October 31: Daily—2 November 1–December 31: Daily—4	
TILEFISH (Blueline, Golden, Sand)	Must follow federal limits and season, permit and reporting requirements— https://www.ecfr.gov/current/title-50/chapter-VI/part-648/subpart-N/section-648.296			
WAHOO*	None	Open Year Round	Daily—2	Only applies to federal waters.
WEAKFISH	13 inches	Open Year Round	Daily—1	
ALEWIFE HERRING, AMERICAN SHAD, ATLANTIC STURGEON, BLUEBACK HERRING, HICKORY SHAD AND SHORTNOSE STURGEON	CLOSED			

* Atlantic Coastal Migratory Pelagic and Charter/Headboat Permits for Spanish and king mackerel as well as the Atlantic Charter/Headboat Dolphin/Wahoo For Hire Fishing Permit are available through the National Marine Fisheries Service, Southeast Regional Office, Permits Office.

BETTER DATA, BETTER FISHING

When you share information about your saltwater fishing trip with a Maryland Department of Natural Resources field interviewer, you're playing a key role in supporting healthy and productive fisheries. Stationed at publicly accessible fishing sites, these specially trained DNR staff collect information used by NOAA Fisheries to estimate total recreational catch. As part of the survey, field interviewers measure and weigh harvested fish and ask about releases. A typical interview takes only about 5 minutes. Field interviewers play no role in enforcement, and have nothing to do with catch limits, rules, or regulations. Participating in the survey is one of the most important things anglers can do to help ensure sustainable fisheries today—and for generations to come.

LEARN MORE. GO FISH.

PUT-AND-TAKE TROUT FISHING AREAS

The following restrictions apply to the areas listed:

- a) Creel limit (brook) – 0 Daily/0 Possession – all brook trout must be immediately released.
- b) Creel Limit (all other species of trout) combined 5 Daily/10 Possession.
- c) Minimum Size—no minimum size.
- d) Season—areas are closed to all fishing from 10 p.m. of the first date, to

5:30 a.m. of the second date, except as provided for by special regulation or where more restrictive fishing hours are posted.

2023 Closure Schedule

- Closure 0 – No Closure.
- Closure 1 – March 5–March 25, 2023
- Closure 2 – March 19–March 25, 2023

SPECIAL MANAGEMENT AREAS—TROUT

Catch-and-Return Trout Fishing Areas—Limited to Artificial Fly Fishing

Areas:

- Big Hunting Creek, Frederick County—all waters of Big Hunting Creek and its tributaries within Cunningham Falls State Park and Catoctin Mountain Park except Owens Creek, Little Hunting Creek, Cunningham Falls Lake and Frank Bentz Pond.
- Beaver Creek, Washington County—from the confluence with Black Rock Creek downstream approximately 1 mile to the red post located 0.1 mile above Beaver Creek Road.
- Patuxent River, Montgomery and Howard Counties—from red bank posts located on both sides of the river, approximately 400 yards below Brighton Dam downstream to Mink Hollow Road.

Restrictions:

- You may not possess trout while fishing in these areas.
- All trout must be immediately released.
- You may only fish with artificial flies and streamers constructed in a normal fashion using natural and/or synthetic materials, which may include feathers, fur, hair, tinsel, thread, fiber, plastic, cork, wire and rubber on a single hook with the components wound on or around the hook. Specifically prohibited are the use of molded replicas of insects, earthworms, fish eggs, fish or any invertebrate or vertebrate either singly or in combination with other materials, or other lures commonly described as spinners, spoons, or plugs made of metal, plastic, wood, rubber or similar substance or a combination of these.
- You may only fish with conventional fly fishing tackle, fly rods, fly reels, and fly line with a maximum of 18 feet of leader or monofilament line attached. Any method of angling when the fly is cast directly from the reel is prohibited. The use of spinning, spincast, and casting reels is prohibited.
- You may not possess or use any natural bait, or live bait, or any device enhanced with a scent capable of catching fish.

Catch-and-Return Trout Fishing Areas—Limited to the Use of Artificial Lures

Areas:

- Patuxent River, Howard and Montgomery counties—the mainstem of the Patuxent River from the crossing of MD Route 97 upstream to the crossing of MD Route 27 and Cabin Branch from its confluence with the Patuxent River upstream to Hipsley Mill Road.
- Morgan Run, Carroll County—from bridge on London Bridges Road upstream to bridge on MD Route 97.
- Paint Branch and tributaries, Montgomery County—upstream of Fairland Road.
- Gunpowder Falls, Baltimore County—mainstem from Prettyboy Reservoir Dam downstream to Bluemount Road.
- North Branch Potomac River—from an overhead cable and red bank post located approximately 345 yards below the Jennings Randolph Reservoir spillway downstream approximately one mile to a red post, located approximately 100 yards above the upstream concrete abutments at Barnum, West Virginia, and from a red post located below a pool known as Blue Hole, approximately 1/3 mile upstream of Bench Mark 1110 on the Westernport United States Geological Survey Quadrangle, downstream approximately 4 miles to the confluence of Piney Swamp Run.
- Youghiogheny River, Garrett County—mainstem beginning at the red post approximately 100 yards upstream of the Deep Creek Lake tailrace and extending downstream 4 miles to the Sang Run Bridge.
- Little Hunting Creek, Frederick County—mainstem from the red post located approximately 0.25 mile downstream of Route 806, upstream to include all waters of Little Hunting Creek within the boundaries of Cunningham Falls State Park.

Restrictions:

- You may not possess trout while fishing in these areas.
- All trout must be immediately released.
- You may only fish with artificial lures, including artificial flies.

- You may not possess or use any natural bait, live bait or any device enhanced with scent capable of catching fish.

Catch-and-Return Trout Fishing Area—North Branch Potomac River

Area:

- North Branch of the Potomac River from the Upper Potomac River Commission Wastewater Treatment Plant discharge at Westernport downstream to the Route 956 bridge at Pinto.

Restrictions:

- You must immediately release any trout.
- No tackle restrictions.

Catch-and-Return Trout Fishing Area—Savage River

Area:

- Savage River mainstem and tributaries upstream of the Savage River Reservoir dam, excluding the put-and-take-areas

Restrictions:

- You may not possess brook trout in this area.
- You must immediately release any brook trout.
- Creel Limit: All other trout species combined—2 Daily / 4 Possession.
- You may only fish with artificial flies and artificial lures.
- You may not possess or use natural or live bait, or any device enhanced with a scent capable of catching fish.

Catch-and-Return Trout Fishing Area—Waters East of Interstate 81

Area:

- All nontidal waters east of Interstate 81.

Restrictions:

- You may not possess brook trout in this area.
- You must immediately release any brook trout.

Trophy Trout Fishing Areas—Limited to the Use of Artificial Lures and Flies

Area:

- Savage River mainstem from the downstream side of the Rt. 135 Bridge upstream for a distance of approximately 2.7 miles to the lower suspension bridge (Allegheny Bridge).

Restrictions:

- Creel Limit: All trout species combined—2 Daily / 4 Possession.

PRIVATE PROPERTY RIGHTS

We urge anglers to respect property rights and seek permission before attempting to park, fish or enter private property. The privilege of fishing and right of entry to private property is at the owner's discretion. Respect for landowners and their property helps to ensure continued fishing access. Poor behavior encourages landowners to post their property to prevent access. Remember that every angler pays for the improper actions of a few. Always be courteous and respectful.

- **Minimum Sizes:**
 - Brook trout—12 inches
 - Brown trout—18 inches
 - All other trout species—no minimum size
- You may not possess any trout smaller than the minimum size limit.
- You may only fish with artificial lures, including artificial flies.
- Treble hooks are prohibited.
- Artificial lures are restricted to single hooks with single hook points.
- You may not possess or use any natural bait, live bait or any device enhanced with a scent capable of catching fish.

Trophy Trout Fishing Areas—Limited to Use of Artificial Flies

Area:

- Savage River mainstem from the Savage River Reservoir Dam downstream to the lower suspension bridge (Allegheny Bridge).

Restrictions:

- **Creel Limit:** All trout species combined—2 Daily / 4 Possession.
- **Minimum Sizes:**
 - Brook trout—12 inches
 - Brown trout—18 inches
 - All other trout species—no minimum size
- You may not possess any trout smaller than the minimum size limit.
- You may only fish with artificial flies and streamers.
- You may only fish with conventional fly fishing tackle (fly rods, fly reels, and fly line with a maximum of 18 feet of leader or monofilament line attached). Any method of angling when the fly is cast directly from the reel is prohibited.
- The use of spinning, spincast, and casting reels is prohibited.
- You may not possess or use any natural bait, live bait, or any device enhanced with a scent capable of catching fish.

Delayed Harvest Trout Fishing Areas

Group I Areas:

- Catoctin and Little Catoctin Creek, Frederick County—from US Route 40 near its intersection with MD Route 17 within Doubs Meadow Park downstream to the lower park boundary near Myersville.
- Catoctin Creek, Frederick County—within the boundaries of Catoctin Creek Park.
- Middle Patuxent River, Howard County—from US Route 29 downstream to Murray Hill Road.

- Town Creek mainstem, Allegany County—within Green Ridge State Forest, from a red post located approximately ¾ mile downstream of the upper ford on Lower Town Creek Road, just south of the Wagner Road intersection, downstream to the red post located just upstream of the lower ford on Lower Town Creek Road (Mallory Place), and from a red post located approximately ½ mile downstream of Manifold Road to a red post located approximately 1¾ miles downstream (Bull Ring Ranch).
- South Branch Patapsco River from West Friendship Rd (Howard County) and Main Street (Carroll County) upstream approximately 1.1 mile to the upper boundary of the Hugg Thomas Wildlife Management Area.

Restrictions:

- From June 1–Sept 30, Creel Limit (all species) combined—5 Daily / 10 Possession, with no tackle restrictions.
- From Oct 1–May 31, you:
 - May not possess trout in these areas.
 - Must immediately release any trout from which the trout was taken.
 - May not possess or use any natural bait, live bait, or any device enhanced with a scent capable of catching fish.

Group II Areas:

- Casselman River mainstem, Garrett County—from a boundary marked by two red posts on both stream banks located on the south side of the Interstate 68 east-bound bridge downstream to the Pennsylvania state line.
- North Branch Potomac River mainstem, Garrett County—from the lowermost boundary of the Potomac State Forest near Lostland Run to the uppermost boundary of the Potomac State Forest at Wallman.
- Youghiogheny River mainstem, Garrett County—below Friendsville from a site located 50 yards downstream of Maple Street (at the confluence of Minnow Run) downstream 1.8 miles to the powerline crossing upstream of the Youghiogheny Reservoir.

Restrictions:

- From June 16–Sept 30, Creel Limit (all species) combined—5 Daily / 10 Possession, with no tackle restrictions.
- From Oct 1–June 15, you:
 - May not possess trout in these areas.
 - Must immediately release any trout.
 - May not possess or use any natural bait, live bait, or any device enhanced with a scent capable of catching fish.

Put-and-Take/Catch-and-Return Trout Fishing Area

Area:

- Owens Creek, Frederick County—mainstem from Buck Lantz Road downstream to Roddy Road.

Restrictions:

- From March 1–May 31:
 - No bait, lure or tackle restrictions are in effect.
 - Put-and-Take Trout Area regulations apply.
- From June 1—the last day of February, you:
 - May not possess trout in these areas.
 - Must immediately release any trout.
 - May not possess or use any natural bait, live bait, or any device enhanced with a scent capable of catching fish.

SPECIAL MANAGEMENT AREAS—ALL SPECIES

Youth, Senior and Blind Angler Fishing Areas

Areas:

- Jones Falls, Baltimore County—Jones Falls and tributaries above Stevenson Road.
- Laurel Run (Moscow), Allegany County.
- Pangborn Pond, Washington County.
- Rising Sun Pond, Cecil County—restrictions in effect from March 1 through May 15. On May 16, the area has no age restriction.
- Boonsboro Pond, Washington County—behind Boonsboro Free Library.

Restrictions:

- Fishing is limited to anglers who are under 16 years old, 65 years and older, or blind.
- Put-and-Take Trout Fishing Area regulations apply in these areas.

Youth and Blind Fishing Areas

Areas:

- Carroll Creek, Frederick County—from the red post located 300 yards upstream of Baughmans Lane, downstream to the dam at College Avenue.
- George’s Creek, Allegany County—within Town Park in Westernport.
- Glades Park Pond, Garrett County—on Liberty Street in Oakland.
- Little Tonoloway Creek, Washington County—within Weidmeyer Park in Hancock.
- Little Antietam Creek, Washington County—at Keedysville, from Coffman Farms Road downstream to MD Route 34.
- Parkview Pond, Garrett County—off Hershberger Lane in Grantsville.

Restrictions:

- Limited to anglers who are under 16 years old or blind.
- Put-and-Take Trout Fishing Area regulations apply in these areas.

Impoundments Limited to Catch-and-Return Fishing

You may not possess any fish in these areas:

- Lake Hashawa, Carroll County.
- Upper John Owings Pond, Carroll County.
- Waterworks Park, Anne Arundel County—City of Annapolis.

REPORT A POLLUTION INCIDENT

EMERGENCY

You may report any environmental emergency by calling toll free **(866) 633-4686**. Anonymous calls are accepted.

NON-EMERGENCY

To report non-emergency environmental concerns go to <https://mde.maryland.gov/pages/reportpollution.aspx>

TAKE A CHILD FISHING!

Photo by Patrick McGrath

Anglers Kasia McGrath, age 7 and Grampa Patrick McGrath.

- **My First Fish Certificate:** Recognize a child with a certificate for their first fish.
- **Youth Fishing Rodeos:** Events which enable and encourage kids to catch a fish.
- **Youth Angler’s Log:** Share Your Catch!
- **Youth Fishing Club:** Membership is free and open to ages from 5 to 15. All members receive a newsletter and gifts for joining.

Learn more about these and other youth fishing programs at: dnr.maryland.gov/fisheries/pages/youth/index.aspx.

YOUR MARYLAND FISHING LICENSE HELPS PROTECT OUR NATURAL RESOURCES.

Get your license **HERE**

Fishing topics **HERE**

A Maryland Fishing License is required for anyone age 16 or over.

FISH CONSUMPTION GUIDELINES

Fish are recommended as part of a healthy and balanced diet. Most fish are safe to eat, but some have levels of contaminants which may be harmful.

The Maryland Department of the Environment monitors fish and provides consumption advisories with recommended limits about how often certain fish should be eaten to minimize health risks. These advisories are intended for people who eat Maryland fish on a regular basis.

The Maryland Department of the Environment analyzes fish for two contaminants which can pose health risks and are known to accumulate in fish: PCBs and methylmercury. The information included in Maryland Department of the Environment consumption advisories is of particular importance for women and children because of the potential harmful effect of these contaminants on developing brains.

To see fish consumption advisories and other information which will help you make the best choices about what fish you eat and how often to eat them, visit mde.state.md.us/programs/marylander/fishandshellfish/pages/fishconsumptionadvisory.aspx or call 410-537-3906.

THE SIMPLE ACT OF FISHING, PRESERVES FISHING.

Every time you purchase a fishing license or register your boat, a portion of the proceeds go toward preserving our nation's coastlines, lakes, rivers and streams. Protecting our memories on the water for generations to come.

LARGEMOUTH AND SMALLMOUTH BASS

Largemouth Bass and Smallmouth Bass Slot Length Limit Areas

Areas:

- Johnson Pond, Wicomico County.
- Leonard Mill Pond, Wicomico County.
- Little Seneca Lake, Montgomery County.
- St. Mary's Lake, St. Mary's County—located on MD Route 5.

Restrictions:

- You may not possess more than five bass (largemouth and smallmouth bass combined) per day while fishing in these areas.
- No bass in possession can measure between 11 and 15 inches long.
- Only one bass in possession may be 15 inches or longer.

Catch-and-Release Bass Fishing Areas

Areas:

- Monocacy River—from the Potomac River upstream to Buckeystown Dam.
- North Branch Potomac River—from the spillway in Cumberland upstream approximately 25 miles to US Route 220 Bridge at Keyser, West Virginia.
- Patapsco River—from Interstate 70 downstream to MD Route 144 (Frederick Road).
- Potomac River—from Dam No. 2 (Seneca Breaks) upstream to the mouth of the Monocacy River.

Restrictions:

- You may not possess largemouth or smallmouth bass in these areas.
- You must immediately release any largemouth or smallmouth bass into the water where it was caught.

Good fishing and good habitat go hand-in-hand. Report situations that you think may threaten the environment, such as aquatic pollution, to mde.webmaster@maryland.gov. For emergency situations when a toxin has been released or there is a threat to human safety, please call **1-866-633-4686**.

LARGEMOUTH AND SMALLMOUTH BASS TOURNAMENT PERMITS

A black bass tournament permit is required if all of the following conditions apply:

- The tournament has 10 or more boats participating.
- The tournament has a specific location where fish are weighed, measured, counted or otherwise entered.
- The tournament provides anglers an offer, reward or incentive for catching black bass.

For a list of permitted tournaments and additional permit information, go to dnr.maryland.gov/fisheries/pages/bass/ta.aspx

The application deadline is either 15 days prior to the tournament if the contest will have 10–50 boats, or 30 days prior for tournaments with 50 or more boats.

Directors are issued permits electronically within two weeks of their application.

TIPS FOR LIVE RELEASE TOURNAMENTS

- Use a big enough live well; one pound fish per gallon of water.
- Use a minimum 750 gal/hour pump.
- Use ice and water exchanges, and keep the live well water temperatures 5–7 degrees F below the river water temperature.
- Take extra care when fishing summer tournaments. Extreme heat can be a killer.
- Use continuous circulation and frequent water exchanges, and periodically lift the lids of live wells to expel carbon dioxide. This may require more of your attention during periods of rough water when bass experience increased stress.
- Act quickly if the live well stops working! Bucket in fresh water every 10 minutes, use a spare pump, move your fish to a working live well, or release them.
- Use an effective culling strategy that prevents tearing the lips or tissue of bass.
- Remove dead bass from live wells; do not discard harvested species at boat ramps or near parking lots. In many cases, harvested fish can be consumed or donated for consumption.
- Clean and remove algae or plant material from live well and intake systems.

Boating Safety and Vessel Requirements 410-643-8502

Boating Outreach 410-260-8272

BOATING INFORMATION

Regulations

A person aboard a vessel, raft or tube must wear a U.S. Coast Guard Approved Type I, II, III or V life jacket at all times while on the upper Potomac River and its tributaries, between November 15 and the following May 15. This regulation is in addition to class III, IV, V, and VI White Water Stream segment regulations, which require life jackets to be worn at all times.

Class III rapids (hazardous)

Dam #3 to Knoxville Falls.

Class IV rapids (significant hazard to life)

Great Falls (foot of falls) to Chain Bridge.

Class VI rapids (extreme risk to life)

Great Falls area from the base of the aqueduct dam to a line from the foot of the main falls on the Virginia shoreline to the Maryland shoreline below Olmstead Island.

Safety Tips

ALWAYS wear an approved life jacket while on the Potomac. Leave a float plan with someone at home describing where you are

going, who you're with and when you expect to return. Know the weather predictions for the area. **REMEMBER** the river currents are strong and unpredictable, especially after heavy rains. Wading should **NOT** be attempted when the river levels exceed the normal level.

DOG HEALTH ALERT

Dog owners are asked to keep pets away from Dark False Mussels and also to take these preventative measures to ensure the safety of your pet. Consumption of Dark False Mussels has been associated with canine illness events and fatalities.

- Keep pets away from boats after being pulled out of water
- Clean boats away from animals
- Dispose of all boat scrapings properly keep dogs on leash to avoid exposure

If you suspect your dog is sick from having eaten dark false mussels, take them to a veterinarian immediately.

LIBERTYTOWN COMMUNITY POND	MD Route 75 at Libertytown	1
URBANA COMMUNITY POND	Dixon Road off Route 80 at Urbana	5

HELP SAVE MARYLAND'S ENDANGERED HELLBENDERS— PLEASE DO NOT KILL

The hellbender is a large, dark, aquatic salamander that can live for more than 30 years and grow to over two feet long. Hellbenders can bite, and their protective coating of slime makes them difficult to handle. If you catch a hellbender on your fishing line, cut the line as close to the hook as possible and let the animal go.

If you have seen or caught a hellbender, we would like to hear from you. Please call the department's Wildlife and Heritage Service at 410-260-8540.

TIDAL / NONTIDAL DIVIDING LINES

The following boundaries are designated as dividing lines for tidal and nontidal waters. These boundary lines identify whether a nontidal fishing license or Chesapeake Bay and Coastal Sport Fishing license is required. If you are fishing upstream of the location listed, nontidal fishing regulations apply. If you are fishing downstream of the location listed, tidal regulations apply. An interactive map of these divisions is located on the "Maps" page at dnr.maryland.gov/fisheries/pages/maps.aspx

Anne Arundel and Prince George's counties

- Anacostia River:
 - a) Northeast Branch Bridge at north-bound lane of Alternate Route 1 Bladensburg Road.
 - b) Northwest Branch Bridge at south-bound lane of Rhode Island Avenue.
- Furnace Branch—MD Route 2.
- Patuxent River:
 - a) Mainstem: bridge on MD Route 214.
 - b) Lyons Creek: MD Route 4.
 - c) Stocketts Run: confluence with the river.
 - d) Rock Run: confluence with the river.
 - e) Ferry Branch: confluence with the river.
- Magothy River—Catherine Avenue.
- Marley Creek—MD Route 10.
- Severn River—bridge on MD Route 3.
- South River and its tributaries:
 - a) North River: Rutland Road.
 - b) Bacon Ridge Branch: Chesterfield Road.
 - c) Beards Creek: MD Route 214.
 - d) Broad Creek: Harry S. Truman Parkway.

Baltimore County

- Big Gunpowder Falls—three-fourths of a mile south of MD Route 7, the Old Philadelphia Road at the B&O Railroad Bridge.
- Little Gunpowder Falls—three-fourths of a mile south of MD Route 7, the Old Philadelphia Road at the B&O Railroad Bridge.
- Stansbury Park Pond—base of dam.
- Stemmers Run—Golden Ring Road Bridge.

Baltimore and Howard counties

- Patapsco River—B&O viaduct at Relay.

Calvert County

- Battle Creek—bridge about two miles east of Bowens (Sixes Road).
- Fishing Creek—one and one-half miles upstream from the mouth of the creek at Chesapeake Beach.
- Hall's Creek—bridge on MD Route 4.
- Hellen Creek—Mill Branch Road, near Solomons.
- Hunting Creek—bridge on MD Route 263 about 100 yards west of MD Route 4.
- Island Creek—Ross Road, near Brooms Island.

- Lyon's Creek—bridge on MD Route 4.
- Mills Creek—MD Route 760.
- Parkers Creek—MD Route 765.
- Plum Point Creek—bridge on MD Route 263.
- Quaker Swamp—MD Routes 2/4.
- St. Johns Creek—MD Route 4.
- St. Leonard's Creek—Parran Road.

Caroline County

- Chapel Branch—MD Route 313 near Piney Grove Church.
- Choptank River—bypass on MD Route 313 on the outskirts of Greensboro.
- Fowling Creek—wooden bridge on Stratum Road about one mile below MD Route 16.
- Hunting Creek—MD Route 331.
- Marshyhope Creek—at its confluence with Faulkner Branch.
- Mill Creek—MD Route 16.
- Tuckahoe Creek—abandoned stone railroad bridge upstream of MD Route 404.
- Watt's Creek—bridge on American Legion Road.

Cecil County

- Big Elk Creek—MD Route 213.
- Bohemia River—Telegraph Road.
- Happy Valley Branch—confluence with Susquehanna River.
- Little Elk Creek—US Route 40.
- Mill Creek—Old Elk Neck Road.
- North East River—MD Route 7.
- Octoraro Creek—bridge on US Route 222.
- Principio Creek—Amtrak crossing below MD Route 7.
- Rock Run—confluence with the Susquehanna River.

Charles, Montgomery and Prince George's counties

- Henson Run—bridge on Old Broad Creek Road.
- Hoghole Run—MD Route 6.
- Mattawoman Creek—bridge on MD Route 225.
- Nanjemoy Creek and its tributaries:
 - a) Mainstem: MD Route 6.
 - b) Mill Run (Burgess Creek): MD Route 6.
 - c) Hill Top Fork: MD Route 6.
 - d) Wards Run: MD Route 6.
- Oxon Creek (Run)—MD Route 210.
- Patuxent River and its tributaries:

- a) Swanson Creek: MD Route 381.
 - b) Mataponi Creek: St. Thomas Church Road.
 - c) Spice Creek: MD Route 382, Croom Road.
 - d) Full Mill Branch: MD Route 382, Croom Road.
 - e) Black Swamp Creek: MD Route 382, Croom Road.
- Piscataway Creek—bridge on MD Route 224 (Livingston Road).
 - Pomonkey Creek—Fenwick Road.
 - Port Tobacco Creek—bridge on MD Route 6.
 - Potomac River—Little Falls at man-made dam.
 - Western Branch—bridge on MD Route 4.
 - Wicomico River—Allens Fresh, bridge on MD Route 234.

Dorchester County

- Chicamcomico River—US Route 50.
- Transquaking River—dam at Higgins Mill Pond.

Harford County

- Bynum Run—Old Philadelphia Road Bridge on MD Route 7.
- Deer Creek—railroad bridge located at the mouth of Deer Creek.
- Gray's Run—CSX Railroad crossing upstream of US Route 40.
- James Run—Old Philadelphia Road Bridge on MD Route 7.
- Winter's Run—dam located one half mile south of MD Route 7, the Old Philadelphia Road.

Kent and Queen Anne's counties

- Chester River—500 yards upstream from the Pennsylvania Railroad Bridge at Millington at the point where the Cypress Branch empties into the Chester River.
- Herring Branch—MD Route 299.
- Morgan Creek—Wallis Road.
- Red Lion Branch—at its confluence with the Chester River.
- Sassafras River—MD Route 299.
- Unicorn Branch—U.S. Geological Survey weir just east of MD Route 313.
- Wye East River—Wye Mills Lake dam.

St. Mary's County

- Budds Creek—MD Route 234.
- Chaptico Run—Chaptico Bridge on MD Route 234.
- Dynard Run—MD Route 242.
- Eastern Branch—MD Route 5.
- Gilbert Swamp Run—MD Route 234.
- Great Mills Run—bridge on MD Route 5.
- McIntosh Run—MD Route 5.
- Park Hall Run—MD Route 5.
- St. Clements Creek—MD Route 234 bridge at town of Clements.
- Tomakokin Creek—MD Route 470.
- Town Run—bridge on MD Route 5.

Susquehanna River

- Conowingo Dam—at US Route 1.

Wicomico and Worcester counties

- Barren Creek—US Route 50 Bridge.
- Beaverdam Creek—dam just upstream of US Route 13 (Business).
- Nassawango Creek—Furnace Road.
- Pocomoke River—bridge on Whiton Crossing, three miles south of Powellville.
- Wicomico River—Isabella Street in Salisbury.

MARYLAND

VOLUNTEER ANGLER SURVEY

A Guide to Skin Wounds and Water Contact

Vibrio are bacteria that occur naturally in brackish and salt waters of the Chesapeake Bay and its tributaries, especially when the water is warm. If *Vibrio* or other bacteria come into contact with an open wound they can cause serious infections, particularly for people with liver disease or a weakened immune system.

Protect Yourself

- If you have any cuts or scrapes, avoid warm Chesapeake Bay and tidal tributary waters.
- If water contact cannot be avoided, cover wounds with waterproof bandages.
- Clean any cut or a scrape immediately with soap and clean water or hand sanitizer then wash as soon as possible.
- Wear shoes and gloves to avoid cuts and scrapes.

If you develop a wound with unusual redness, swelling or drainage, SEEK MEDICAL ATTENTION IMMEDIATELY and let your health care provider know whether you came in contact with brackish or salt water.

Check the Status of Your Favorite Beaches

To always stay informed, download our new smartphone app or sign up for one of our text or email alerts. Data is available during Maryland's beach season, which runs from Memorial Day to Labor Day.

Be sure to avoid swimming near storm drains along the beach and within 48 hrs of a heavy rain event, or until the water clears.

410-537-3906

toll-free 800-633-6101 ext. 3906

INVASIVE SPECIES

The introduction of invasive and non-native species can cause irreversible changes in the food web. Several invasive species of concern are listed below. For information on other invasive and non-native species, and to see a list of species prohibited from transport, visit dnr.maryland.gov/invasives. To report the illegal transport or unauthorized introduction of invasive species, contact the Natural Resources Police—800-628-9944.

Snakehead

It is against Maryland, Virginia, and federal laws to possess, import, or transport live northern snakehead.

The Department of Natural Resources asks anglers to report snakeheads with a picture using Maryland's Invasive Fish Tracker at <https://survey123.arcgis.com/share/bf026700cada433296cab48ab2a090b6>

If you catch a snakehead and want to keep it, you must immediately kill the fish. Anglers are encouraged to catch and keep snakeheads year round. There is no minimum size or creel limit for snakeheads.

The Department of Natural Resources asks anglers to report snakeheads caught outside of the Potomac River and its tributaries or upstream of Great Falls. Send catch information to fishingreports.dnr@maryland.gov or call 410-260-8300 to help the department track the range of the species.

If you catch a snakehead with a blue or red tag, please report the tag number and the location, date and time of day when the fish was caught to the U.S. Fish and Wildlife Service at 800-448-8322.

Blue and Flathead Catfish

The Department of Natural Resources asks anglers to report blue catfish or flathead catfish with a picture using Maryland's Invasive Fish Tracker at survey123.arcgis.com/share/bf026700cada433296cab48ab2a090b6

Chesapeake Bay blue catfish and flathead catfish are invasive species that have spread rapidly throughout the Chesapeake Bay and its tributaries. These catfish have few natural predators, eat a wide variety of native fish and shellfish, and may cause ecological harm.

It is illegal to release live invasive catfish into a waterbody different than where it was caught. This illegal act is punishable by a fine of up to \$2,500. Anglers are encouraged to catch and keep blue and flathead catfish year round. There is no minimum size or creel limit for these catfish.

INVASIVE CATFISH IDENTIFICATION

Catfish Illustrations by Duane Raver

Blue Catfish

Anal fin squared with 30 to 36 fin rays

Flathead Catfish

Projecting lower jaw and a slightly notched tail

NON-INVASIVE CATFISH IDENTIFICATION

Channel Catfish

Anal fin with rounded margin and deeply forked tail

White Catfish

Stocky body with large head, anal fin with rounded margin and moderately forked tail

HARVEST AN INVASIVE FISH AND HELP REDUCE THE SPREAD OF INVASIVE SPECIES

Questions on what gear is legal to harvest invasive species? Check out the gear tables in the Sport Fishing Regulations section on pages 16 and 17.

If you are interested in selling the snakehead you catch, there is a license that will let you do that. The Commercial Northern Snakehead License allows you to use either archery equipment or hook and line to harvest and sell Northern snakeheads caught from tidal waters. For more information about this license, contact our Licensing and Registration Service at 410-260-3220.

MARYLAND'S INVASIVE SPECIES TRACKER

You can help Maryland's Department of Natural Resources to track the invasive species in our waterways. Use this form to report and help prevent their spread. survey123.arcgis.com/share/bf026700cada433296cab48ab2a090b6

Zebra Mussels

Zebra mussels are an aggressive invasive species and reproduce at a very prolific rate, out-competing native species for needed resources. These mussels quickly overtake and cover all available areas to such an extent that they can clog water intake structures, boats, moorings, ropes, fishing lines, traps, and even dams and power plants. Zebra mussels are established from the Susquehanna River and Flats to the upper Bay. Additionally, The Department of Natural Resources recently confirmed the presence of zebra mussels in tributaries of the upper Western Shore near Middle River in Baltimore County.

More information on zebra mussels is available at dnr.maryland.gov/invasives/pages/zebra_mussels.aspx, including a fact sheet and reporting form. The department asks citizens, to report any suspected sightings to invasivemussels.dnr@maryland.gov.

STATE RECORDS FOR INVASIVE SPECIES

- Catfish, Blue — 84.0 lbs., Ed Jones, 8/13/2012, Near Fort Washington, Potomac River
- Catfish, Flathead — 57.0 lbs., Joshua Dixon, 12/27/2020, Lapidum Boat Ramp, Susquehanna River
- Northern Snakehead — 19.9 lbs., Andrew D. Fox, 5/24/2018, Indian Head, Mattawoman Creek

Photo by Andrew D. Fox

To view more state records visit dnr.maryland.gov/fisheries/pages/state-records.aspx or go to page 47.

Maryland's MOST UNWANTED

Non-native species can invasively colonize our waters and push out native species leading to negative impacts on water quality, fish habitat, and recreation.

Prevent the spread of harmful species:

- REMOVE** and dispose of aquatic plants, mud, and debris from your boat, motor, trailer and gear before launching and after haul out.
- DRAIN** all water from live wells, bilge, bait buckets, coolers, and motor immediately after use.
- DISPOSE** of all unused bait far away from the water. Immediately remove the heads of crayfish in the Upper and Middle Potomac, Monocacy River and Susquehanna River Basin.
- RINSE** boat, motor, trailer, tackle, buckets and all gear, including SCUBA gear, with hot or high-pressure water.
- DON'T STOCK** fish in any waters. The importation, introduction and transport of aquatic species without a permit is prohibited by law.
- DON'T TRANSFER** live fish from one area to another.
- DON'T RELEASE** aquarium fish into the wild.

FISHNET CHARTERS CAPE COD - BUZZARDS BAY

Targeting all species of gamefish • Sea Bass - Stripers - Tautog

508-951-9991 • capt.meltrue@gmail.com • www.captainmeltrue.com

STRIPED BASS

It is Illegal:

- To possess any cut up or filleted striped bass at any time aboard any boat on the tidal waters of Maryland. Striped bass must be landed whole.
- To use more than two hooks or two sets of hooks for each rod or line. Artificial lures or plugs with multiple hooks are considered 1 set of hooks.
- To use eels as bait while fishing for striped bass with hook and line from Dec. 16–May 15, inclusive, in the Chesapeake Bay and its tidal tributaries.
- To cull striped bass.
- To possess striped bass while fishing in the Chesapeake Bay or its tidal tributaries from midnight to 5 a.m.
- To use a gaff to land striped bass.
- To take or shoot striped bass with a spear gun and spear in the tidal waters of the state.

- To fish for striped bass by any means or practice catch-and-release of striped bass in designated spawning areas from March 1–May 31.
- To intentionally snag a striped bass.

Striped bass may not be caught, harassed or possessed in the Exclusive Economic Zone, which stretches from 3–200 miles off the coast.

STRIPED BASS REGULATIONS MAPS

Visit https://dnr.maryland.gov/fisheries/Pages/sb_reg_maps.aspx to view maps of striped bass regulations.

BE ON THE LOOKOUT FOR TAGGED FISH!

The success of tagging studies relies on anglers like you. If you catch a tagged fish, please follow the instructions printed on the tag, or call Fishing and Boating Services at 800-688-3467. Please record the tag number, capture date, fishing location, and total length.

CHESAPEAKE BAY AND TIDAL TRIBUTARIES (excluding the Susquehanna Flats, Lower Susquehanna River and Northeast River)

SEASON	FISHING LOCATIONS ALLOWED	CREEL AND SIZE LIMITS	REGULATIONS	RESTRICTIONS AND REMARK
JAN. 1–FEB. 28	All Maryland Chesapeake Bay waters and the Potomac River are open to catch and release fishing only	No harvest	Catch and release only	<ul style="list-style-type: none"> • Directed catch and release of striped bass in the Potomac requires barbless hooks. • Eels may not be used as bait.
MAR. 1–MAR. 31	Chesapeake Bay from the Brewerton Channel to the Virginia line including Tangier and Pocomoke Sounds.	No harvest	<ul style="list-style-type: none"> • Stinger (trailing) hooks are prohibited. • Barbless hooks are required when trolling. • Non-offset circle hooks or J hooks with a gap of less than ½ inch are required when using natural bait. • No more than 6 lines may be employed while trolling regardless of the number of anglers on board. 	<ul style="list-style-type: none"> • Spawning rivers and the Upper Bay spawning area are off limits until June 1 to striped bass fishing. • Eels may not be used as bait. • See maps at: dnr.maryland.gov/fisheries/Pages/sb_reg_maps.aspx
APR. 1–APR. 30	All areas closed to striped bass fishing.	CLOSED	<ul style="list-style-type: none"> • No catch and release fishing. Attempting to catch striped bass is illegal during this time period. 	
MAY 1–MAY 15	Chesapeake Bay from Brewerton Channel to the MD-VA Line, excluding all bays, sounds, tributaries, creeks and rivers, except Tangier Sound and Pocomoke Sound	1 fish per person per day Minimum size 35 inches	<ul style="list-style-type: none"> • Eels may not be used as bait. • See maps at: dnr.maryland.gov/fisheries/Pages/sb_reg_maps.aspx 	
MAY 16–MAY 31	Chesapeake Bay downstream from a line drawn from the south corner of Hart-Miller Island Dike to the end of MD Route 21 at Tolchester and south to the MD/VA line, excluding all bays, sounds, tributaries, creeks and rivers. EXCEPT: Tangier Sound and Pocomoke Sound; Chester River and its tributaries downstream of a line drawn from Hail Point to Long Point to Ferry Point; Patuxent River and its tributaries downstream of a line drawn from Point Patience to the west point of land at the entrance of Little Kingston Creek; and Choptank River and its tributaries downstream of a line drawn from Holland Point to a point of land at the west entrance of Chapel Creek are open.	1 fish per person per day Minimum size is 19 inches	<ul style="list-style-type: none"> • See Maps at: https://dnr.maryland.gov/fisheries/Pages/sb_reg_maps.aspx • Anglers must use non-offset circle hooks when live-lining or chumming; Anglers must use non-offset circle hooks when using fish, crabs or worms as bait and targeting striped bass, or when using processed baits and targeting striped bass 	
JUNE 1–JULY 15	All Maryland Chesapeake Bay waters and tributaries open to fishing	1 fish per person per day Minimum size 19 inches	<ul style="list-style-type: none"> • See Maps at dnr.maryland.gov/fisheries/Pages/sb_reg_maps.aspx • Anglers must use non-offset circle hooks when live-lining or chumming; Anglers must use non-offset circle hooks when using fish, crabs or worms as bait and targeting striped bass, or when using processed baits and targeting striped bass. 	
JULY 16–JULY 31	All areas closed to striped bass fishing.	CLOSED	<ul style="list-style-type: none"> • No catch and release fishing. Attempting to catch striped bass is illegal during this time period.

BLUE CRABS—CHESAPEAKE BAY AND ITS TIDAL TRIBUTARIES

Crabbing License/Registration

See page 13.

Season

April 1–Dec. 15.

Time of Day

Setting gear and catching crabs is allowed during the following time periods:

Rivers, creeks and tributaries:

- April and Oct. through Dec. 15—one half hour after sunrise to sunset.
- May through Sept.—one half hour before sunrise to sunset.

Chesapeake Bay mainstem:

- April and Oct. through Dec. 15—one half hour after sunrise to 5 p.m.
- May through Sept.—one half hour before sunrise to 5 p.m.

Using handlines and dip nets is permitted 24 hours a day, as well as annually registered crab pots on private property.

Day of Week Restrictions

No recreational crabbing is allowed on Wednesdays except:

- When using crab pots from private property;
- When using handlines or dip nets;
- During a week when a state or federal holiday falls on a Wednesday or Thursday.

Minimum Size Limits

(measured from tip to tip of spikes)

Male hard crab:

- April 1–July 14—5 inches.
- July 15–Dec. 15—5¼ inches.

Male peeler crab:

- April 1–July 14—3¼ inches.
- July 15–Dec. 15—3½ inches.

Soft crab:

- April 1–Dec. 15—3½ inches.

Daily Creel/Possession Limits

LICENSE		DAILY CREEL / POSSESSION LIMIT	
		MALE HARD CRABS	MALE PEELERS, SOFT CRABS OR COMBINATION
UNLICENSED INDIVIDUAL	<ul style="list-style-type: none"> • From shore • From unlicensed boat • From waterfront crab pots 	2 dozen	1 dozen
LICENSED INDIVIDUAL	<ul style="list-style-type: none"> • From shore • From unlicensed boat • From waterfront crab pots 	1 bushel	2 dozen
BOAT LIMITS			
DAILY CATCH AND POSSESSION BOAT LIMITS FOR APRIL 1–JUNE 30, 2023			
UNLICENSED BOAT	With 1 unlicensed individual	2 dozen male crabs	
	With 2 or more unlicensed individuals	4 dozen male crabs	
	With 1 or more licensees and any number of unlicensed individuals	1 bushel of male crabs	
LICENSED BOAT	With any number of licensed or unlicensed individuals	1 bushel of male crabs	

It is Illegal for a Recreational Crabber:

- To sell crabs.
- To possess an egg-bearing (sponge) crab or any female hard or peeler crab.
- To set or fish a trotline, collapsible trap or crab net ring within 100 feet of another individual's set gear.
- To fish crab gear which belongs to another person.
- To harvest crabs while SCUBA diving.
- To use gear other than the gear listed in the table below.

Additional Crab Pot Rules

- Crab pots must have two cull rings, one measuring at least 2¾ inches and one at least 2½ inches located in the exterior side panel or the top panels of the pot.
- Crab pots must have a turtle reduction device attached to each entrance or funnel in the lower chamber constructed of wire or plastic, rectangular in shape not larger than 1¾ inches high by 4¾ inches long.
- Annual registration required.

The Amount of Gear Allowed for Unlicensed and Licensed Recreational Crabbing

LICENSE STATUS	HANDLINES AND DIP NETS	CRAB POTS ON PRIVATE PROPERTY	TROTLINE	COLLAPSIBLE TRAPS AND NET RINGS	SEINE	EEL POTS
UNLICENSED	Unlimited	A maximum of 2 annually registered crab pots per property regardless of the number of owners or lessees.	Not Allowed	Not Allowed	Not Allowed	Not Allowed
LICENSED	Unlimited	These pots must be: <ul style="list-style-type: none"> • Marked with your DNRid • Set in front of private property within 100 yards of shore • Attached by a line to the property or marked by a buoy or pole and sign • Registered annually • Equipped with a turtle reduction device 	<ul style="list-style-type: none"> • Up to 1200 ft* • Must have floats of the same color, size, shape on each end • Floats must be marked with your DNRid 	<ul style="list-style-type: none"> • Up to 30 traps, rings or combination of both* • Must be marked with a buoy bearing your DNRid unless attached to a pier, wharf or boat • Traps must have a flat bottom measuring no more than 20 inches by 15 inches and have no more than four articulated sides • Net rings must have a diameter less than or equal to 30 inches 	<ul style="list-style-type: none"> • Mesh cannot be greater than ¼" • Cannot exceed 50' in width and 5' in height • Must be emptied from shore 	<ul style="list-style-type: none"> • Up to 10 eel pots for catching your own bait • Must be labeled with your DNRid and may not be set in a buoy-free channel

*The amount of gear is per boat regardless of the number of licensees or individuals on board.

BLUE CRABS—ATLANTIC OCEAN, COASTAL BAYS AND TRIBUTARIES

Season

April 1–Dec. 31.

Harvest Restrictions

- There are no license or registration requirements, but gear must be marked with owners name and address.
- There are no time of day restrictions.
- The taking of sponge crabs is prohibited.

Minimum Size Limits (measured from tip to tip of spikes)

- Hard crabs—5 inches.
- Soft crabs—3½ inches.
- Peeler crabs
 - April 1–July 14—3¼ inches.
 - July 15–Dec. 31—3½ inches.
- Mature female crabs—no minimum size.

Recreational Crabbing Daily Catch Limits

The daily catch limit in the waters of the coastal bays of the Atlantic Ocean and their tidal tributaries is:

- One bushel per person.
- Two bushels per boat if two or more individuals are on the boat.

It is Legal

To crab in the coastal bays of Maryland's Atlantic Ocean and coastal tributaries using:

- No more than 600 feet of baited trotline, with floats of the same color, size and shape attached to each end; or
- No more than two 600-foot trotlines if two or more persons are in the boat; or
- Dip nets and any number of handlines; or
- Seines with mesh no greater than 1/4" that do not exceed 50' in width and 5' in height that is emptied from shore, or
- No more than 10 or a combination of 10 collapsible crab traps or crab net rings per person from docks, piers, bridges, boats or shoreline; or
- No more than 25, or a combination of 25, collapsible crab traps or crab net rings, if two or more persons are in a boat.

For waterfront property owners to set a maximum of two crab pots at their property, provided that:

- Pots are marked with the owner's name and address or DNRid; and
- Crab pots must have two cull rings, one measuring at least 2³/₁₆ inches and one at least 2⁵/₁₆ inches, located in the exterior side panel or the top panels of the pot.
- Crab pots must have a turtle reduction device attached to each entrance or funnel in the lower chamber constructed of wire or plastic, rectangular in shape not larger than 1¾ inches high by 4¾ inches long.

TURTLE REDUCTION DEVICES ARE REQUIRED BY LAW

Turtle reduction devices are required in recreational crab pots in Maryland. These devices reduce the number of terrapins entering a crab pot without hindering blue crab entry. Without turtle reduction devices, terrapins can enter crab pots and drown. To get instructions for making or attaching a turtle reduction device, visit dnr.maryland.gov/fisheries/pages/regulations/crabpot.aspx

Installing a Turtle Reduction Device (TRD) on a crab pot.

STEP 1: Obtain a 1¾" x 4¾" TRD (metal or plastic) for each funnel opening in the crab pot, along with heavy plastic cable ties. Hog rings or cable ties can be used to attach metal TRDs.

STEP 2: Position the TRD at the narrow bank end of each entrance funnel.

STEP 3: Use heavy zip ties (cables) to loop around funnel wire and the corner of the TRD. Pull tightly and trim excess cable. Use a minimum of four cable ties or hog rings to firmly attach each reduction device.

BLUE CRAB IDENTIFICATION

SALLY

An immature (adolescent) female blue crab is easily identified as having an inverted "V" or triangular shaped apron and red-tipped claws.

SOOK

A mature (adult) female blue crab identified as having an inverted "U" or bell-shaped apron and red-tipped claws.

JIMMY

A mature male blue crab with a long, narrow, inverted "T" shaped apron and blue-tipped claws.

Steven C. Zinski (www.bluecrab.info) (3)

ARTIFICIAL REEFS

Maryland has artificial reef sites in both bay and ocean waters. These are collaborative projects between the Maryland Department of Natural Resources, the partner organizations of the Maryland Artificial Reef Initiative, and the Ocean City Reef Foundation.

The Maryland Artificial Reef Initiative is a volunteer organization including more than 60 private, state, and federal partners dedicated to preserving, restoring and creating fish habitat in tidewater Maryland. It acts as a funding mechanism under an agreement with the Coastal Conservation Association Maryland using private and corporate donations for reef development.

The Ocean City Reef Foundation works to build reefs off of Ocean City and, in partnership with The Maryland Artificial Reef Initiative, accepts donations as a non-profit 501(c)(3) at ocreefs.org.

For more general information on artificial reef projects and to view the Maryland Artificial Reef Initiative and The Ocean City Reef Foundation reef coordinates, go to dnr.maryland.gov/fisheries/pages/reefs/index.aspx.

Maryland residents may harvest oysters and clams for recreational purposes. No license is required.

Refer to maps of Maryland Shellfish Harvesting Areas for information on areas of restricted waters, closures, and coordinates of sanctuaries via mde.maryland.gov/programs/marylander/fishandshellfish/pages/shellfishmaps.aspx.

You may also call the Maryland Department of the Environment hotline 800-541-1210 to obtain information on conditional closures due to water quality or other environmental issues.

Recreational shellfish regulations for the Potomac River can be found at prfc.us.

It is Illegal

- To take oysters or clams for recreational purposes while aboard a vessel where any person is engaged in commercial oystering or clamming.
- To recreationally harvest oysters or clams within a leased area, harvest reserve area, sanctuary or any other area closed by the state.
- To harvest oysters or clams if you are not a resident of Maryland.*

* However, a nonresident may harvest clams in Worcester County.

RECYCLE OYSTER SHELLS

Please recycle your oyster shells. You can find information about recycling at: oysterrecovery.org/sra/

RANGIA CLAMS

The Rangia clam is often found in Maryland in low salinity water. Many of these areas, especially those within 200 feet of shore, have not been tested or approved by the Maryland Department of the Environment for shellfish harvest, and the consumption of these clams is not recommended.

Rangia clams should not be confused with the better-known hard clam found primarily in the coastal bays.

Oysters

Season, Creel Limit, Times and Days

Season: Oct. 1, 2022–March 31, 2023
 Catch Limit: 100 oysters/person/day
 Days Allowed: Monday through Saturday
 Catch Times: Sunrise–Noon

Gear Restrictions

A person may catch oysters ONLY by:

- Rakes
- Diving (includes SCUBA)
- Hand
- Shaft tongs

Minimum Size Limits

Three inches measured from hinge to bill along the longest part of the shell. You must determine the size of the oysters prior to leaving the location from which they were caught. Any shell and under-sized oysters must be returned to the water before you leave the area.

HOW TO MEASURE OYSTERS

Hard Clams

Daily Harvest Restrictions

250 clams/person/day

Gear Restrictions

Limited to hand-operated gear only, including hand rakes. Mechanical harvesting is not allowed.

Minimum Size Limits

One inch transverse measurement.

HOW TO MEASURE CLAMS

With you wherever you go.

The most up-to-date fishing regulations online!

eRegulations.com

HIGHLY MIGRATORY SPECIES

Federal Highly Migratory Species Permits

To recreationally fish in federal waters for any authorized Atlantic tunas, billfishes, swordfish, and sharks (except spiny dogfish), and within the state waters for tunas, vessel owners must have a valid federal fishing permit for their vessel. A shark endorsement is needed to fish for sharks recreationally in federal waters. Call 888-872-8862 or go to hmspermits.noaa.gov/ to obtain a permit/shark endorsement.

Passengers fishing on a vessel who do not possess a highly migratory species permit or have a state saltwater fishing license must register with National Oceanic and Atmospheric Administration's National Saltwater Angler registry. To register, go to st.nmfs.noaa.gov/nmri/.

Landing Requirements

All landings of bluefin tuna, billfishes, swordfish, and sharks must be reported using the Maryland Catch Card Census. Anglers must complete a catch card and exchange it for a tag to be placed around the tail before moving it from the vessel. Sharks caught from shore must be tagged before moving from the point of landing. Boats cannot be pulled from the water until the tag is in place.

Catch cards and tags are available at the following reporting stations:

- Alltackle, Ocean City (shark tags only)
- Assateague Island National Seashore Visitor Contact Station/Campground Office Hunter's Station, Berlin (shark tags only)
- Atlantic Tackle, Ocean City
- Bahia Marina, Ocean City
- Buck's, Berlin (shark tags only)

Sharks

SEASON, HARVEST RESTRICTIONS, MINIMUM SIZE AND DAILY CREEL/POSSESSION LIMITS				
SHARK SPECIES APPROVED FOR RECREATIONAL HARVEST*	SEASON	MINIMUM FORK LENGTH	DAILY CREEL SHORE* (PER ANGLER)	DAILY CREEL VESSEL* (PER TRIP)
ATLANTIC SHARPNOSE SHARK, BONNETHEAD SHARK	Open Year Round	None	Each recreational shore angler is allowed a maximum of 1 shark per calendar day from this list of approved species.	Each recreational vessel is allowed a maximum of 1 shark per trip from this list of approved species.
BLACKNOSE SHARK, BLUE SHARK, COMMON THRESHER SHARK, FINETOOTH SHARK, OCEANIC WHITETIP SHARK, PORBEAGLE SHARK	Open Year Round	54 inches	In addition, each recreational shore angler may harvest 1 of each of the following species per calendar day:	In addition, each recreational angler may harvest 1 of each of the following species per trip:
BLACKTIP SHARK, BULL SHARK, LEMON SHARK, NURSE SHARK, SPINNER SHARK, TIGER SHARK	Open Year Round Except May 15–July 15	54 inches	1. Bonnethead	2. Atlantic Sharpnose shark
GREAT, SCALLOPED, AND SMOOTH HAMMERHEAD SHARKS	Open Year Round Except May 15–July 15	78 inches	2. Atlantic Sharpnose shark	
SMOOTH DOGFISH	Open Year Round	None	None	None
SPINY DOGFISH	Open Year Round	None	None	None

* Sharks that are transported by vessel are considered boat assisted, and regulated under the more restrictive vessel-fishing possession limits regardless of where they were caught. All species not listed in the above table, including sandbar, dusky, and shortfin mako sharks, may not be retained and must be released.

- Department of Natural Resources/Natural Resources Police, Col. Jack Taylor Boat-house, Ocean City (after hours kiosk)
- Fisherman's Marina, Ocean City
- Ocean City Fishing Center, Ocean City
- Ocean Pines Marina, Ocean Pines
- Pines Point Provisions and Seafood, Ocean Pines

- Sunset Marina, Ocean City
- Talbot Street Pier and Marina, Ocean City
- Catch cards can also be downloaded at dnr.maryland.gov/fisheries/pages/coastal/tagging.aspx

It is Illegal

- To sell, barter, or trade sharks or shark parts.
- To engage in shark finning.
- To fillet sharks at sea. All sharks caught by an angler must have heads, tails, and fins attached naturally to the carcass through landing.
- For a highly migratory species angling, charter/headboat, and general category (if participating in a registered Atlantic highly migratory species tournament) permit holder to possess hammerhead sharks or oceanic whitetip sharks simultaneously with billfish, tunas, or swordfish.

Gear Restrictions

Anglers may use only handlines or rod and reel and must use corrodible, non-stainless circle hooks except when fishing with artificial flies/lures. You must have a device with you that is capable of quickly cutting either the leader or the hook.

SHARK RULES (See the table for species, sizes, and seasons)

IF YOU CAN'T OR AREN'T GOING TO KEEP A SHARK:

- You must immediately release it in the water

IF YOU CAN'T OR AREN'T GOING TO KEEP A SHARK YOU MAY NOT:

- Sit on it
- Hold its mouth open
- Put it on dry sand
- Put it on a boat deck
- Use a gaff

MAXIMIZE THEIR CHANCE FOR SURVIVAL:

- Don't place hands in the gills
- Minimize fight times by using the appropriate gear
- Know how to identify them, "If you don't know let it go"
- Have a release plan and make sure everyone knows their role
- Cut the line, minimize trailing gear or use a dehooker

Sharks Caught Fishing in state Waters (Listed species represent a sampling which may be encountered)

■ – Stocky ■ – Skinny Shark illustrations by Diane Rome Peebles

Source: Guide to Sharks, Tunas and Billfishes of the U.S. Atlantic and Gulf of Mexico by Rhode Island Sea Grant and National Oceanic and Atmospheric Administration Fisheries. To learn more about coastal Sharks in Maryland go to dnr.maryland.gov/fisheries/pages/coastal/sharkfacts.aspx

Atlantic Sharpnose Shark ■
No Interdorsal Ridge

Distinguishing features

- White spots
- Second dorsal fin begins above middle of anal fin
- Long labial furrows around corners of mouth

Blacktip Shark ■
No Interdorsal Ridge

Distinguishing features

- Anal fin white and other fins with black tips (fades with age)
- First dorsal begins above axil of pectoral

Bull Shark ■
No Interdorsal Ridge

Distinguishing features

- First dorsal fin large, triangular, rearward sloping, originating over or slightly behind pectoral insertion

Dusky Shark ■
Interdorsal Ridge

Distinguishing features

- First dorsal sloping and begins behind pectoral fin
- Second dorsal fin with free tip length rarely more than twice fin height

PROHIBITED

Sandbar Shark ■
Interdorsal Ridge

Distinguishing features

- First dorsal fin tall, triangular, starts over or slightly before pectoral fin
- Large, broad pectoral fins

PROHIBITED

Sand Tiger Shark ■
No Interdorsal Ridge

Distinguishing features

- Dorsal fins nearly equal in size
- Small eyes
- Large teeth sticking out of the mouth

PROHIBITED

Scalloped Hammerhead ■
No Interdorsal Ridge

Distinguishing features

- Hammer marked by prominent indentation at midline
- Pelvic fins with straight rear margins

Smooth Dogfish ■
Interdorsal Ridge

Distinguishing features

- Dorsal fins nearly equal in size
- Oval shaped eyes
- Spiracles behind eyes

Spiny Dogfish ■
Weak Interdorsal Ridge

Distinguishing features

- Dorsal spines
- No anal fin
- Body usually with white spots

ROUNDSCALE SPEARFISH LOOK VERY SIMILAR TO WHITE MARLIN

Illustration ©Diane Rome Peebles

Recreational fishing offers opportunities for families and friends to spend quality time together, enjoying the abundant natural resources Maryland has to offer. FishMaryland is Maryland's recreational fishing award program and is a fun way to explore year-round recreational fishing and enjoy Maryland's affordable, accessible, diverse and high quality fishing opportunities.

Photo by MD DNR

The Maryland Department of Natural Resources and Bass Pro Shops-Outdoor World presents Gary Simpson with a Bass Pro Shops Gift Card.

Mr. Simpson is the first angler to reach the Master Angler Milestone Award in the FishMaryland Program, catching ten different species meeting the minimum trophy length.

Components:

- Species Award (includes catch and release)**—Any angler fishing legally in Maryland may catch and report a trophy sized fish by landing any of more than 60 eligible species in three categories at or above a certain minimum size. If you catch a fish that meets or exceeds the official award size, simply lay the fish on a tape measure and photograph so that the species and size can be verified (HMS species cannot be removed from the water unless being kept. A photograph in the water is acceptable as long as the species can be identified). Submit your catch through our online registration process. Once your catch is verified, you will receive your award certificate within 45 days.
- Invasive Species Award**—Recognizes anglers for reporting their harvest of certain eligible invasive fish species. "Invasive" describes a species that, when introduced into an ecosystem, aggressively establishes itself and has the potential to negatively impact native plants, animals, or habitat. Currently there are three invasive fish species which naturally reproduce or migrate into Maryland waters and are eligible for the Invasive

Species Award: blue catfish, northern snakehead and flathead catfish. Fish must be kept to qualify.

- Milestone Award**—Milestone awards recognize those skillful anglers who catch multiple species, each milestone is marked with a certificate and a corresponding sticker. To qualify, anglers can only submit eligible catches caught from 2019 to present.
- Governor's Striped Bass Conservation Award**—In addition to a Species Award, those who catch and release an award sized striped bass during the open season will be recognized with a Governor's Striped Bass Conservation Award at the end of the fishing season. The award recognizes any recreational angler who releases alive a striped bass catch of 40 inches or more while fishing Maryland waters during the open season.

For information on FishMaryland, including rules and registration go to—dnr.maryland.gov/fisheries/pages/challenge/rules.aspx.

FISHMARYLAND MINIMUM SIZES	
NONTIDAL DIVISION	
Bluegill	11 inches
Brook Trout	12 inches

SPORT FISH STATE RECORDS

STATE RECORDS

All potential state record fish will be reviewed under the official rules. For state records rules and procedures, go to: dnr.maryland.gov/fisheries/pages/challenge/staterecordrules.aspx

RULES AND PROCEDURES

The department maintains sport fish state records and awards a plaque to an angler whose catch exceeds the current state record or establishes a new species category. Positive identification of the species of fish is mandatory for consideration of state record applications. The catch must be inspected in person by a department fisheries biologist. Immerse the fish in ice water until it can be weighed in order to preserve the weight.

Call 443-569-1398 or 410-260-8300 to report a potential state record catch. You must submit a state record application within two weeks of the date you catch the fish.

State record fish are determined by weight. Most fishing tackle shops do not have certified scales, so call ahead. Other establishments that sell products by weight such as a grocery, deli or shipping store may have a certified scale and be willing to help.

Except for fish in the Invasive Division, all fish must be legally caught with rod and reel during its open season. From the time that a fish strikes or takes a bait or lure, the angler must hook and fight the

fish without the aid of any other person. The reel must be operated manually. Once the leader is brought to the rod tip, more than one person is permitted to help land the fish.

Fish designated as eligible for the Invasive Division (currently northern snakehead, blue catfish and flathead catfish) can be caught and kept by all legal recreational fishing gear including rod and reel, bow and spear.

Fish caught from privately-owned fee fishing waters are not eligible for record consideration.

The fish must be considered trophy sized, commonly available and sought after for the department to consider opening a new species category for recognition. Thresholds for trophy size are established by the department using the best data available to create a benchmark weight.

The department reserves the right to investigate the methods used in catching the fish and the accuracy of measuring and weighing. It also reserves the right to reject any application based on the results of the investigation.

MARYLAND'S MARINE MAMMAL AND SEA TURTLE STRANDING 24-HOUR HOTLINE: 800-628-9944

- In Maryland call 800-628-9944 to report all (live or dead) stranded sea turtles or marine mammals (including manatees, dolphins, whales, porpoise and seals).
- If calling from **outside Maryland**, please use:
 - **Live animals:** 410-373-0083 (National Aquarium Animal Program)
 - **Dead animals:** Call or text location and description to 443-758-6607 (Department of Natural Resources Marine Mammal and Sea Turtle Program)
- Do not touch, harass, feed or handle live or dead marine animals. Marine mammals and sea turtles are protected by federal and state laws that specify fines of up to \$50,000, imprisonment, and/or vessel confiscation.
- Record your location using latitude/longitude, and a detailed description of your location including landmarks.
- Estimate and note the length, size, color, noticeable body parts, and any movement of the animal.
- Take photos of the animal.
- For more information, visit dnr.maryland.gov/fisheries/pages/oxford/stranding.aspx

Department biologists conduct necropsy examinations when feasible to determine cause of death, and notification of fresh carcasses is important.

Sea turtles and marine mammals: manatees, seals, dolphins and whales are included in our stranding response protocols.

Sea turtles in Maryland include: Kemp's Ridley, Loggerhead, Leatherback and Green

Department biologists collecting carcass of sperm whale in Ocean City, MD.

BOATERS

PROTECT WHALES, SEA TURTLES, SEALS, STURGEON AND YOURSELF FROM FROM PREVENTABLE BOAT COLLISIONS.

Know before you go

- **Give Space**
Safe distances reduce risks of illegal disturbance and dangerous collisions.

- **Go Slow**
Slower boat speeds give animals time to get out of your way.

- **Report**
Report entanglements to 800-628-9944. Call Stranding Responders immediately at 410-373-0083 or 443-758-6607 or US Coast Guard on CH-16 on your VHF radio.

- **Clean up**
ALWAYS clean up your trash! Sea turtles can confuse garbage, especially plastic, floating in water for food. If sea turtles eat garbage they can die.
