# Mid Shore Behavioral Health, Inc.

## Introduction to the Guide

Mid Shore Behavioral Health, Inc. (MSBH) is pleased to present a revised 2024 edition of the Resource Guide for Behavioral Health Services in Caroline, Dorchester, Kent, Queen Anne’s, and Talbot Counties in Maryland. This guide, while not inclusive of every service or behavioral health provider in the five-county area, represents MSBH’s effort to help people in the community become more aware of the services that are available to them.

Mid Shore Behavioral Health, Inc. is a private, not-for-profit 501(c)(3) core service agency charged with overseeing the behavioral health systems and services in the mid-shore region, with some programs serving the nine-county region of Maryland’s Eastern Shore. MSBH was incorporated in 1992 through a collaboration of the five county governments and mental health stakeholders.

Mid Shore Behavioral Health, Inc.’s Board of Directors consists of members appointed by the five local governments, five at-large members, and two charter members representing all stakeholders, including consumers, family members, or other residents of the five counties who possess some expertise in the field of behavioral health.

## Mission

Mid Shore Behavioral Health, Inc.’s mission is to continually improve the provision of behavioral health services for residents of Caroline, Dorchester, Kent, Queen Anne’s, and Talbot counties through effective coordination of care in collaboration with consumers, their natural support systems, family members, providers, and the community at large.

## Vision

Mid Shore Behavioral Health, Inc.’s vision is a rural behavioral healthcare delivery system that is clinically and culturally competent. This system will ensure access, have a community focus, be cost-effective, and be integrated to serve the community.

## What We Do

Mid Shore Behavioral Health, Inc. strives to enhance a regional behavioral health system of care through effective collaboration with consumers, providers, and community leaders. MSBH’s goal is to develop a full array of accessible services and resources for the consumer through partnership with our providers and other agencies. MSBH offers guidance in understanding and navigating all that is available in our community. Beyond the primary responsibility for local publicly funded mental health services, MSBH understands that behavioral health is essential to overall health, and many domains of life contribute to one’s behavioral health, especially having a home, purpose, and community connection. MSBH seeks to address the needs of the whole person and collaborates to improve the systems of care of the whole community throughout the region. The most important core value of our organization is hope: the belief that resiliency and recovery are real provides the essential and motivating message of a better future – that people and communities can and do overcome the internal and external challenges, barriers, and obstacles that confront them to achieve wellness.

## Mid Shore Behavioral Health, Inc. Organizational Chart

Visit Mid Shore Behavioral Health's [website](#) for a list of [current staff](#) and [career opportunities](#).

## Core Service Agency Overview

### What is a Core Service Agency?

A Core Service Agency (CSA) is a state funded agency, as part of local health departments, local county governments, or non-profit organizations that operates under contract with the State of Maryland’s Behavioral Health Administration (BHA), a division of the Maryland Department of Health (MDH). The Annotated Code of Maryland Health General Article 10-1201 through 1203 mandates Core Service Agencies, Local Addictions Authorities, and Local Behavioral Health Authorities. Mid Shore Behavioral Health, Inc., as a CSA, functions under the MDH Secretary’s authority. Mid Shore Behavioral Health Inc. is a regional, non-profit CSA that serves five mid-shore counties and is the only regional CSA in the State. MSBH’s primary responsibility is community planning, management, and monitoring of publicly funded medically necessary behavioral health services in the five-county region for consumers across the life span: children, adolescents, adults, and the aging population. Optum Maryland Behavioral Health is the Administrative Services Organization (ASO), which is the organization under contract with the MDH Medicaid Office to process claims, enroll consumers, pre-authorize medically necessary services, credential providers, and pay claims.

### Who are the Consumers in the Public Behavioral Health System?

The Public Behavioral Health System (PBHS) provides medically necessary services for people with Medical Assistance (Priority Partners) and for some individuals who are uninsured, or Medical Assistance Ineligible.

# Mid Shore Behavioral Health, Inc. Services

Mid Shore Behavioral Health, Inc. works to connect people and consumers in need to behavioral health services by providing information about providers and treatment agencies in the local mid-shore region. Individuals experiencing mental health, substance use, homelessness, disabilities, or problem gambling challenges can visit [MSBH's website](#) or call the main office for resources and assistance getting connected to behavioral health services. MSBH is not a behavioral health service provider.

Consumers are individuals receiving behavioral health treatment and rehabilitation services within the fee for service Public Behavioral Health System (PBHS). Consumer assistance can be obtained by submitting a [Consumer Support Service Request](#) for pharmacy assistance, transportation to behavioral health-related appointments, laboratory costs as it relates to behavioral health treatments, and other support needs that help to achieve or stabilize community placement, which include one-time annual help with first month's rent, security deposit, utility turn on or deposit, basic household goods to establish a residence, or past due utility, rent, or mortgage if the applicant can show sustainability, referred to as a "special needs." All applications are subject to evaluation and approval. Incomplete applications will be denied and returned.

MSBH can also assist with concerns regarding the services you or a family member are receiving. We first encourage you to discuss your concerns directly with the provider, however, if further assistance is needed, please call our office at 410-770-4801.

If you have been denied a service by Optum Maryland Behavioral Health, the Administrative Services Organization (ASO), you have the right to appeal that decision. Please refer to the [MSBH website](#).

Mid Shore Behavioral Health facilitates quarterly Behavioral Health Services Network (BHSN) meetings, where stakeholders discuss trends, changes, and issues concerning behavioral health in the Eastern Shore. The network comprises eight workgroups whose members include providers, consumers, and behavioral health professionals. All BHSN meetings are open to the public.

These workgroups are:

- Adult Services Workgroup
- Children, Adolescents, and Young Adults Workgroup
- Crisis Intervention Team Workgroup
- Diversity and Inclusion Workgroup
- Forensic Workgroup
- Mid-Shore Roundtable on Homelessness
- Mid-Shore Peer Workgroup
- The People's Roundtable

Visit the [BHSN page on the MSBH website](#) for additional details and contact information for the workgroups. Those interested in helping build the best regional Public Behavioral Health System are encouraged to participate in these groups. If you would like to be added to MSBH's bi-weekly newsletter to stay updated on mid-shore behavioral health-related meetings, trainings, and events, sign up for [MSBH's Steering Wheel newsletter on the MSBH website](#).

Eastern Shore Hospital Center (ESHC) is a State acute-care mental health residential facility established to serve citizens of the State of Maryland, specifically the Eastern Shore, by providing a continuum of adult inpatient care, transitional mental health services, evaluation and treatment for individuals involved with the judicial system. The Eastern Shore Hospital Center is a smoke-free mental health facility under the jurisdiction of Maryland’s Behavioral Health Administration, Maryland Department of Health. ESHC houses four psychiatric units for a total of 84 beds. ESHC’s mission is to provide the highest quality inpatient mental health services in the Eastern Shore for adults aged 18 and older. ESHC is accredited by the Joint Commission and is certified by the Centers for Medicare and Medicaid Services.

The Kent County Behavioral Health Outpatient Mental Health Center (OMHC) is a community treatment facility for individuals suffering from mental illness and other emotional or psychological barriers. The mission is to help individuals affected by these barriers to achieve a better quality of life through prevention, intervention, and comprehensive treatment. Our primary values are the preservation of the dignity and wellbeing of every patient through the promotion, maintenance, and restoration of a healthy, happy, and productive life.

Shore Counseling is a solution focused practice that helps teens and adults experiencing depression, anxiety, trauma, PTSD, addiction, life transitions, and more. Our focus is to empower individuals and couples to heal, motivate, and become aware of their inner strengths. We achieve this by providing a safe space for you to express your concerns, discover what makes you strong, and use those strengths to realize your full potential.

<p>Our name, Positive Strides, reinforces the confidence, self-esteem, and optimism that our riders achieve through our therapeutic programs. From autism and addiction recovery to PTSD and cerebral palsy, equine therapy can play a powerful role in giving a person the confidence and skills they need to live a fulfilling life. Our CATCH Riders program helps youth at risk and adults recovering from family violence and sexual abuse. Just brushing and interacting with a horse can calm a person with dementia or help someone with depression. We strive to build confidence, self-esteem, and a sense of accomplishment for individuals with physical, cognitive, and emotional needs by utilizing equine-assisted activities and therapies. We have been providing these services to residents of the Eastern Shore since 1981.</p>

Caroline, Dorchester, Kent, Queen Anne's, Talbot	18+	❖ Case Manager ❖ LCSW-C	English <b>Interpreter:</b> No <b>Translator:</b> No
 <p>The Forensic Mental Health Program (FMHP), through Mid Shore Behavioral Health, Inc., focuses on the intersection between the criminal justice and mental health systems by working to evaluate and connect criminal defendants and probationers to the limited community mental health resources available on the mid-shore. The FMHP staff work closely with Judges, Masters, Parole and Probation Agents, and local detention centers to assist in cases where the defendant has mental health and/or co-occurring issues. The FMHP staff provides mental health evaluations, jail diversion plans, referral and resource connection, mental health treatment monitoring and advocacy. Case management services are provided for diversion and monitoring cases. The staff consists of a mental health coordinator who is a licensed mental health professional with experience in forensics and a case manager with knowledge of mid-shore resources.</p>			

### Maryland Community Criminal Justice Treatment Program

**Caroline County Detention Center:** 410-479-4117  
**Dorchester County Detention Center:** 410-228-8101  
**Kent County Detention Center:** 410-810-2266  
**Queen Anne's County Detention Center:** 410-758-3817 option 5  
**Talbot County Detention Center:** 410-770-8136

**Maryland Community Criminal Justice Treatment Program (MCCJTP)** is operational in all Maryland jurisdictions except Montgomery County and Baltimore City, assisting local detention centers in meeting the comprehensive needs of justice-involved individuals. In collaboration with the Core Service Agencies (CSAs), the program delivers both clinical treatment and case management services reaching an average of 10,000 individuals annually. Each participating jurisdiction works in partnership with experts from agencies that provide behavioral health services, case management, and legal counsel services. In addition, input is sought from representatives from the detention centers, judiciary, parole and probation, law enforcement, social services, consumer advocates, and community. For more information, please contact the program coordinator, at 410-402-8482

**Phone:** 410-476-4441 **Email:** [hhornfeck@forallseasonsinc.org](mailto:hhornfeck@forallseasonsinc.org)

**Trauma, Addictions, Mental Health and Recovery (TAMAR)** is a State funded program offered to women who are detained in Caroline and Dorchester detention centers. These women have been identified, or self-identified, as having a history of physical and/or sexual abuse and a recent treatment history for a mental health condition, as well as a drug use/use disorder. Individuals eligible to participate are encouraged to voluntarily join the program with the knowledge that participation does not in itself reduce jail time. Program services are delivered by a licensed, master's level clinician who is responsible for providing bio-psycho-educational treatment in accordance with the TAMAR program manual. Case

management services are to be conducted by an individual with a minimum degree of baccalaureate and provide coordination of services while the consumer is incarcerated, as well as development of an aftercare plan with the consumer in making community referrals, advocating “mainstream” services, and establishing communication for monitoring the receipt of treatment upon re-entry to the community. Ensure the education of detention center staff members, community mental health providers, and appropriate stakeholders about the needs of trauma survivors. Maintain communication with courts, parole and probation, and community-based providers to educate about TAMAR.

## Psychiatric Rehabilitation Programs

Psychiatric Rehabilitation Program (PRP) services facilitate an individual’s recovery to develop or restore an individual’s independent living and social skills, including the individual’s ability to make decisions regarding self-care management of illness, life, work, and community participation, as well as promote the use of resources to integrate the individual into the community. Services may be provided in an on-site facility, or in a setting most conducive to promoting the participation of the individual in community life.

tic Healing and Mental Health

Bee Well is a holistic healing and mental health group practice. We focus on helping you achieve your goals through a holistic lens. Alternative healing practices such as yoga, reiki, mindfulness and meditation are used in conjunction with more traditional modalities like EMDR, sensory-motor psychotherapy, CBT, and motivational interviewing to help you create change. We believe in cultivating a comfortable environment that feels like home to promote healing. Bee Well knows the value of relationships in therapy and takes special care to match each client with the therapist who can best help them. Reach out today for a free 20- minute consultation.

My passion is to help clients navigate life's bends, twists, turns and challenges, in a welcoming, safe, judgement free environment. I use a person-centered and eclectic approach, to help you develop solutions, build on your strengths, and prepare to master whatever life throws your way. Although, my primary focus is Person-Centered. I utilize best facets of various other theoretical approaches, like CBT, REBT, Strength Based, Mindfulness, and Solution Focused Therapies. My goal is to find the approach that best meets the needs of my client. Together with my clients, we develop treatment goals to prepare my clients with the skills they need. Collaboratively we develop, implement and build confidence utilizing those skills for coping, responding, and navigating life's complexities.

The A.F. Whitsitt Center (AFWC) is an Intermediate Care Facility for individuals experiencing substance use and/or mental health disorders. AFWC's mission is to help those affected by behavioral health disorders achieve a better quality of life through prevention, intervention, comprehensive treatment, and recovery support services. AFWC is CARF accredited and provides a continuum of care, including medically monitored detox, inpatient residential treatment, and Medication Assisted Treatment (MAT). The facility also offers crisis/stabilization beds through the State Opioid Response grant in collaboration with MSBH and BHA.

Founded in 2015, BrightView provides comprehensive, evidence-based outpatient addiction treatment to thousands of patients in recovery from substance use disorder throughout Ohio, Kentucky, Virginia, North Carolina, Massachusetts, Maryland, Delaware and Arizona.

The organization's more than 80 centers provide a practical treatment approach that includes medication assisted treatment (MAT), individual counseling, group therapy, peer support, and wraparound social services, as well as work on co-occurring disorders. Locations are generally able to dispense medication on-site, which makes treatment comfortable and convenient for patients.

BrightView's compassionate and professional staff create an accessible and welcoming environment for physical and emotional healing. BrightView is committed to treating each patient with respect, providing positive reinforcement, and achieving long-term wellness. To learn more, please [brightviewhealth.com](http://brightviewhealth.com).

Grace Street is a recovery community organization (RCO) dedicated to saving lives and fostering healing for anyone affected by substance use disorder. RCO's help bridge the gap between professional treatment and a successful life in long-term recovery. Grace Street provides non-clinical, community-centered, peer recovery support services and care coordination, along with harm reduction resources; workforce training and development; youth programming; overdose prevention activities and resources; and support groups. Referrals are not necessary, and services are free.

 MarylandROTA (Rural Opioid Technical Assistance) is part of an initiative by the Substance Abuse and Mental Health Services Administration (SAMHSA) and was established by the University of Maryland (UMD) in partnership with local and state organizations. By developing and delivering training and technical assistance, MarylandROTA aims to strengthen the ability of rural communities in Maryland to help identify, understand, and respond to the opioid epidemic. Our goals are to, first, leverage the existing University of Maryland Extension (UME) programs and system to enhance the ability of rural Maryland communities to identify, understand, and respond to the opioid epidemic. Second, we strive to serve rural communities throughout Maryland by increasing public awareness, understanding, and skills to respond to opioid misuse and decrease overdoses and deaths, which is in alignment with state goals.

# Naloxone (Narcan)

Naloxone is a prescription medicine that temporarily stops the effect of opioids. Always call 9-1-1.

Caroline: 410-479-8030 Dorchester: 410-228-3223	Kent: 410-778-1350	Queen Anne's: 410-758-0720 Talbot: 410-819-5600
<b>Phone:</b> 410-730-8267 <b>Website:</b> <a href="http://www.mdcoalition.org">www.mdcoalition.org</a>		
<a href="http://www.stopoverdose.org/section/find-naloxone-near-you">www.stopoverdose.org/section/find-naloxone-near-you</a> <a href="http://www.naloxoneforall.org">www.naloxoneforall.org</a>		

# SAVE A LIFE WITH NALOXONE

## WHAT IS NALOXONE?

Naloxone is a prescription medicine that safely and effectively reverses an opioid overdose. It is not addictive. Doctors and paramedics have used it for decades. Naloxone is sprayed up the nose.

## OPIOID OVERDOSE RESPONSE STEPS

**Recognize the Signs of an Opioid Overdose**

- Loud snoring
- Lips or fingertips turning blue
- Pale/grayish skin
- Unresponsiveness
- A very limp body
- Shallow, slow, or stopped breathing
- Slow or stopped heartbeat

**Know Your Rights**  
Maryland's Good Samaritan Law protects people assisting in an emergency overdose situation from arrest, as well as prosecution, for certain crimes. To learn more, visit [MDDeinitorRecovery.org](http://MDDeinitorRecovery.org).

**STEP 1: GET THEIR ATTENTION**

Firmly rub your knuckles up and down the middle of the person's chest.

**STEP 2: CALL 911**

Tell them your location and the person's symptoms.

**STEP 3: GIVE NALOXONE**

1. Peel back the package to remove the device.
2. Place tip of nozzle in either nostril until your fingers touch the bottom of the person's nose.
3. Press the plunger firmly to release dose into nose.
4. Give second dose if first dose does not work within 1-3 minutes.

**STEP 4: SUPPORT BREATHING**

1. Lay the person on their back.
2. Tilt the chin back. Remove anything blocking airway.
3. Pinch the person's nose closed and cover their mouth with your mouth.
4. Blow 2 regular breaths, then give 1 breath every 5 seconds.
5. Do chest compressions if trained in CPR.

**STEP 5: CARE FOR THE PERSON**

Stay with the person until medical help arrives.

Place the person in recovery position: face and head turned to the side, top hand placed under head, and top knee bent to support the body.

1 Shore MRSS (Mobile Response Stabilization Service)

Our Mobile Response Stabilization Service (MRSS) program provides crisis response and stabilization to youth and their families. Building on existing regional and county services and utilizing a family-centered approach, we support families with crisis de-escalation strategies, short-term stabilization, and strategic coaching to prevent and diffuse future crises.

<p>The Worcester County Health Department’s Crisis Response Team (CRT) provides 24-hour coverage 365 days a year to residents and visitors of Worcester County. CRT is activated by Law Enforcement, Atlantic General Hospital, and various other agencies throughout the county. CRT provides an emergency mental health and addiction assessment on the scene and attempts to connect individuals to community resources as appropriate.</p>				

## Residential Crisis Services

Residential Crisis Services (RCS) are funded with state general funds and are short-term, intensive mental health and support services for children, youth, and adults in a community-based, non-hospital, residential setting.

Heather Howes (Crisis Director) – hhowes@channelmarker.org 410-822-4619 <a href="#">Residential Crisis Beds</a>	<ul style="list-style-type: none"> <li>❖ Donations</li> <li>❖ Grant Funding</li> <li>❖ Public Behavioral Health (Medicaid)</li> <li>❖ Self-Pay</li> </ul>
<p>The Bridge offers a new Residential Crisis Bed service to address the needs of individuals who are seeking stabilization through acute, non-emergent crisis support services. The Bridge provides an alternative for or step-down from inpatient stay. The Bridge ensures coordination of care is maximized, and clients can be easily transitioned from one level of care to another. On-site clinical support is available around the clock, and coordination among other mental health and wellness services in the region is a priority. The Bridge setting allows access to an exercise room, TV and computer lounges, state-of-the-art kitchen, social and recreational areas, a meditative courtyard, and a walking path on property.</p>

<p>The Retreat offers a safe harbor and sanctuary for adults experiencing a psychiatric crisis. As a voluntary alternative to hospitalization, The Retreat provides short term Residential Crisis Services in a 24/7 community-based setting. In addition to Residential Crisis Services, The Retreat offers crisis counseling. The Retreat is appropriate as an alternative to psychiatric hospitalization or to shorten the length of a hospital admission. Anyone who is medically stable, under the care of a physician, awaiting admission to or stepping down from a psychiatric unit can be safely cared for at The Retreat. Retreat's trained crisis staff offer the comforts of a home-like setting augmented with counseling and therapeutic groups. The Retreat will assist you with meetings with physicians and therapists to further enhance your recovery.</p>

<p>An independent living center is a consumer controlled, community-based, cross disability, nonresidential private nonprofit agency that is designed and operated within a local community by individuals with disabilities. Independent living services maximize the ability to live independently in the environment of their own choosing. Bay Area Center for Independent Living (Bay Area CIL) offers five core services mandated by the Rehabilitation Act of 1973, as amended, Title VII, Chapter 1, and reauthorized by the Workforce Innovations and Opportunities Act of 2014.</p>			

## Caroline Center, Inc.

Caroline Center, Inc.	
12061 School St. Ridgely, MD 21660	<b>Phone:</b> 800-863-2102 or 410-643-2103 <b>Website:</b> <a href="http://www.carolinecenterinc.org">www.carolinecenterinc.org</a>
<p>Caroline Center inspires program participants to make healthy choices with regards to where, and with whom, they live, learn, work, and socialize; and to share in the responsibilities attributing to their quality of life. The Caroline Center offers a Life Enrichment Program, available to adults and transitional aged youth (18 years of age and older) with intellectual and developmental disabilities; a Residential Program, designed to allow individuals to have access to the services and supports, within the agency and the community, they need to live their lives in the way that they choose; and Support Services, including Community Supported Living Assistance (CSLA) and Family &amp; Individual Supported Services (FISS). These services are available to eligible children and adults with intellectual and developmental disabilities so that they may remain in their own homes. Individuals receive guidance related to daily living skills, meal preparation, transportation, employment opportunities and participation in life enriching activities. FISS services are flexible and responsive to the needs of the individuals and/or families who live within a household.</p>

Delmarva Community Services, Inc.	
2450 Cambridge Bltwy. Cambridge, MD 21613 <b>Phone:</b> 410-221-1900 <b>Fax:</b> 410-221-1917 <b>Website:</b> <a href="https://www.dcsdct.org/">https://www.dcsdct.org/</a>	
	Residential services are available to persons with developmental disabilities via a referral service in conjunction with the Dorchester County Health Department's Office of Developmental Disabilities. Through this referral process, a plan is developed to secure appropriate funding and decide on the level of care needed to meet the individual's/service plan. Services range from drop-in supervision to 24-hour supervision. Individuals may live in single dwellings or in homes having three to five bedrooms. Everyone is assigned a coordinator who monitors their care and supervision and makes certain their outcomes and goals are addressed. Call 410-221-1900 ext. 137 for more information. The Vocational Program is a multi-faceted approach that offers many opportunities for individuals with developmental disabilities. Several avenues of training and work are available based on the McCarron Dial Basic Vocational Evaluations, and the goals and desires of the individual. Call 410- 221-1900 ext. 120 for more information. Respite is a program that helps caregivers get a break from the care they provide a loved one. This allows caregivers to be able to continue to do what they do, caring for a loved one. They can use the respite hours for vacation, appointments they have, shopping, etc. Caregivers are reimbursed. There are five respite care programs administered by Delmarva Community Services. All programs require an application. Contact the office to see if you or your loved one qualifies for one of the programs.

Developmental Disabilities Resource Coordination

	Pathfinders, Inc. was established as a 501(c)3 nonprofit organization in February 2000 by parents of children with autism, including Baltimore Orioles Hall of Famer William "B.J." Surhoff and his wife Polly Winde Surhoff. After 18 months of development, Pathfinders for Autism launched the Pathfinders for Autism Resource Center – offering knowledgeable staff and a

searchable online database to help families in Maryland find critical service providers quickly and efficiently. Since then, Pathfinders for Autism has grown into the State's largest autism organization dedicated to helping individuals, parents, and professionals find resources, supports, and training while working to increase the awareness of autism spectrum disorders and advocating for the needs of individuals with autism and their families.

## Local Care Teams (LCT)

Each county has a Local Care Team (LCT) to assist families with accessing resources for children with intensive needs in order to support them in their homes and communities. The Team includes local representatives from all child-serving agencies in the county as well as other community resource providers. Whether a child/youth is struggling with intensive physical, intellectual, behavioral health needs, the Team works with parents/guardians to put in place supports/services for them. Referrals can be made by reaching out to the Local Care Team Coordinator at the information below. Local Care Teams are administered through each county Local Management Board. General information about Local Care Teams and LCT Coordinator contact information for other counties can be found at <http://goccp.maryland.gov/localcareteams/>.

## Legislative Advocacy

**Website:** [www.midshorebehavioralhealth.org/advocacy](http://www.midshorebehavioralhealth.org/advocacy)

The Behavioral Health Coalition of the Mid-Shore seeks to bring together community leaders to address the behavioral health needs of individuals, families, and providers in the mid-shore region with our local legislators. Coalition efforts are focused on improving access and service delivery, destigmatization, and increasing awareness. Each year, the Behavioral Health Coalition hosts an annual Legislative Forum for Behavioral Health, inviting local government officials and Delegation from the 36th and 37th Districts to attend. Coalition partners include Maryland Coalition of Families, Chesapeake Voyagers, Inc., For All Seasons, Inc., Channel Marker, Inc., Crossroads Community, Inc. / Corsica River Mental Health, Affiliated Santé Group's Eastern Shore Crisis Response, Eastern Shore Psychological Services, Recovery for Shore, and Local Health Departments.

**Website:** [www.mhamd.org](http://www.mhamd.org) **Email:** [dmartin@mhamd.org](mailto:dmartin@mhamd.org)

The Maryland Behavioral Health Coalition brings together 100+ mental health and substance-related disorder organizations representing consumers, advocates, family members, service providers and behavioral health professionals. We are united in our mission to improve behavioral health access and service delivery for all Marylanders. Since its inception in 1993, the Coalition has achieved numerous legislative and policy victories in behavioral health. These include passage of the Maryland Mental Health Parity Law, the establishment of an integrated, performance-based public behavioral health system, and the protection and expansion of funding for mental health and substance-related disorder services.

Maintaining Active Citizens (MAC) is the designated area agency on aging for Dorchester, Somerset, Wicomico, and Worcester counties. MAC is dedicated to the principle that older persons are entitled to lives of dignity, security, and physical, mental, and social well-being, as well as full participation in society. MAC, an equal opportunity employer and service provider, serves as a focal point from which to address social and economic needs identified by older persons, and to provide a full range of services.

**Phone:** 410-758-0848

Maryland Access Point (MAP) recognizes that our health and access to long term services options are impacted by the conditions in which we live. MAP aims to engage individuals to define their needs and preferences and identify options that will work for them.

## Maryland Department of Aging

301 West Preston Street, Suite 1007 Baltimore, Maryland 21201

**Phone:** 410-767-1100 or 800-243-3425 **Fax:** 410-333-7943 **Website:** <https://aging.maryland.gov/Pages/default.aspx>

The [Maryland Department of Aging \(MDoA\)](#) and the statewide network of 19 Area Agencies on Aging assist older Marylanders with a range of services and sources of information. MDoA administers state and federal programs, many of which are significantly lower in cost than nursing home placement. Programs include information, empowerment, community wellness and nutrition, long term services and supports, and elder rights protections.

**Website:** [www.healthcarequality.mhcc.maryland.gov](http://www.healthcarequality.mhcc.maryland.gov)

Consumer Guide to Long Term Care - Long Term Care (LTC) refers to services that assist people who are aging, have disabilities, or have chronic care needs to maintain their independence in personal or health-related activities. Services include shopping, taking medications, managing money, doing activities outside the home, and assistance with personal care such as bathing, dressing, and toileting. Services can be provided in a person's home, in the community, in alternate living facilities. A person can use LTC services at any age and may use long term care services for a short period of time after an acute illness or hospitalization or over several months or years.

**Community First Choice Waiver** provides community services and supports to enable older adults and people with disabilities to live in their own homes. CFC and HCBO participants are also eligible to

**Home and Community-Based Options Waiver** provides community services and supports to enable older adults and people with disabilities to live in their own homes. CFC and HCBO participants are also eligible to receive other Medicaid services which may include Physician and Hospital Care, Pharmacy, Home Health, Laboratory Services, Mental Health Services,

<p>The Long-Term Care Ombudsman Program resolves the problems of individuals in long-term care facilities, provides information and referral about facility selection and quality care, assists resident and family councils, promotes residents' rights, and represents residents' needs and interests to public officials. Nursing homes and board and care homes (including assisted living) are visited by long-term care ombudsmen. Ombudsmen are advocates for residents, working with them, and for them, to address complaints. Confidentiality is central to all ombudsman work.</p>

**The Homeless Management Information Systems (HMIS)** is a database for local providers known as Service Point. The system provides information and referral for licensed users, as well as tracking and reporting of homeless services used in the region. Serving Caroline, Dorchester, Kent, Queen Anne, and Talbot Counties.

**The Mid Shore Roundtable on Homelessness** - Continuum of Care (CoC) - is a mid-shore collaboration of homeless service providers, community agencies, local governments, stakeholders, and consumers leaders working to improve the availability and delivery of housing and supportive services to individuals and families who lack permanent, stable, and safe housing. The Roundtable on Homelessness Workgroup meets 2nd Tuesday at 1:30 p.m.

Permanent Supportive Housing

SSI/SSDI Outreach, Access, and Recovery (SOAR)

**Continuum of Care (CoC) Housing Programs** are HUD funded rental subsidies for homeless persons/families with behavioral health disabilities. Eligibility is determined through intake process. Program monitoring provided by Supportive Services staff.

**SOAR**, Supplemental Security Income (SSI) / Social Security Disability Benefits (SSDI) Outreach Access and Recovery, is a national program designed to increase access to SSI/SSDI for adults who are experiencing or at risk of homelessness and have a mental illness, medical impairment, and/or a co-occurring substance use disorder.

**Contact:** Bernie Vernin, Continuum of Care Specialist, ext. 319

## Residential Rehabilitation Programs

Wayfarer's House

Women and Children

Residential Rehabilitation Programs (RRPs) for adults provides support in a residence outside of the individual's own home and provides needed resources and support not sufficiently available within the individual's own existing social support system. Residential Rehabilitation Programs (RRPs) provide services based upon the individual's needs in varying levels of support, both general and intensive, and are subject to additional admission/continued stay criteria.

\*RRP Applications are processed through the Core Service Agency (CSA). Please contact your local CSA for placement, not the providers below. To obtain a full listing of Core Service Agencies in Maryland please visit <https://health.maryland.gov/bha/Documents/MABHAAugust2022.pdf>

The Chesapeake Multicultural Resource Center empowers people from different cultures to become successful and engaged members of the community by coordinating services and informational programs.			

The Greensboro Connects Initiative is a program that connects multiple services with residents of the Town of Greensboro and surrounding areas. This initiative will provide an office-style physical space to organizations including non-profits that provide a service to the community. Those organizations will have the opportunity to provide services to residents who do not have the financial resources or transportation to access those services. Due to the lack of public transportation in the area, low-income families find it difficult to travel to access these services that are located about 35-45 minutes away. This initiative seeks to provide mental health services, Substance Abuse, Family Resources/Youth Program, among others.

- ❖ Check website for more

## Kent and Queen Anne's County

NAMI (National Alliance on Mental Illness) Kent & Queen Anne's is an affiliate of NAMI Maryland and NAMI national. The NAMI mission is to educate, support and advocate for those with mental illness and their families. Information and programs are available to educate about mental illnesses to reduce stigma and help people seek help early. NAMI KQA supports NAMI MD's advocacy efforts and initiatives. We engage in active community outreach, including speakers available to address community groups and organizations regarding mental health and our services.

A web-based internet tool and mental health resource for everyone, including a provider service network, a medical library, resource/ veterans' links, and support/advocacy group contacts. Sponsored by: Department of Health and Mental Hygiene; Transformation Project, and Mid Shore Behavioral Health, Inc. **Website:** [www.networkofcare.org](http://www.networkofcare.org)

#### Queen Anne's County Safety Net

Queen Anne's County Safety Networks to make Queen Anne's County citizens knowledgeable and help them recognize indicators of suicidal thinking and link residents in need with prevention and intervention services with emphasis on stigma related events, public service announcements, and education/intervention. Meets the 3rd Wednesday of every month at 1:15pm at the QAC Board of Education. **Phone:** 410-758-2403 ext. 154

**Phone:** 1-800-270-1898 **Website:** [www.ruralhealthinfo.org](http://www.ruralhealthinfo.org)

RAC helps rural communities and other rural stakeholders access the full range of available programs, funding, and research that can enable them to provide quality health and human services to rural residents.

 Turn Around's mission is to build a community free of violence by working with adults and children affected by intimate partner and sexual violence to address their needs and prevent further violence through advocacy and education.

## Mobile Treatment Teams / ACT

<p>Upper Bay Counseling        200 Booth St. Elkton, MD 21921  <b>Phone:</b> 410-996-5104  <b>Website:</b> <a href="http://www.upperbay.org">www.upperbay.org</a></p>	<p>Corsica River Mental Health Services  <b>Phone:</b> 443-480-8425  <b>Website:</b> <a href="http://www.crmhsinc.com">www.crmhsinc.com</a></p>	<p>Go-Getters, Inc.  <b>Phone:</b> 410-341-9696  <b>Website:</b> <a href="http://www.gogettersinc.org">www.gogettersinc.org</a></p>
---	---	---

Mobile Treatment Services provide assertive outreach, treatment, and support to individuals with mental illness who may be homeless, or for whom more traditional forms of outpatient treatment have been ineffective. Service is mobile and provided by a multidisciplinary team in the individual's natural environment. Mobile Treatment Services also are available for children, adolescents, and their families who require more intensive intervention to clinically stabilize the child's or adolescent's psychiatric condition, to promote family preservation and/or to return functioning and quality of life. Services provided include psychiatric evaluation and treatment, clinical assessment, medication management/monitoring, interactive therapies, support with daily living skills, assistance with locating housing, and case management. The duration, frequency and intensity of services provided are determined by an individual's treatment plan. The goals are to connect consumers to treatment services in the community, avert hospitalizations, and remediate tenuous living situations. Additional information and referrals can be found on MSBH's website.

 <p>B-HIPP provides in-house behavioral health consultant service to local pediatric providers and the families they serve. Master of Social Work interns serve as a resource to local agencies seeking a pipeline for information to and from the pediatric primary care offices. Daily roles of B-HIPP interns include advocate, case manager, therapist, behavioral interventionist, navigator, family worker, educator, and crisis manager. Intervention targeting includes parenting skills training, stress management, communication and targeted mood management, assessment and behavioral management, and motivational interviewing. B-HIPP also provides phone consultations for pediatric primary care providers throughout the State of Maryland with questions surrounding mental health concerns. B-HIPP is supported by funding from the Maryland Department of Health and Mental Hygiene and Maryland State Department of Education and is conducted through a partnership among the University of Maryland School of Medicine/Department of Psychiatry, the Johns Hopkins University School of Public Health, and Salisbury University Social Work Department.</p>

The QAC Transportation Voucher Program is a grant funded program operated under the QAC Local Management Board. The Program provides transportation services and resources for QAC residents through referrals from agencies or providers. The Program serves 3 populations in QAC: 16-24 years old who are not enrolled in school or employed; families with children in the home who are 18 or under and are at-risk of not transitioning well into adulthood; or families with children in the home who are 18 or under and are affected by a family member's incarceration.  
 Hours are 8 a.m. to 4:30 p.m., translation apps are available.

The central goal of HCHV programs is to reduce homelessness among Veterans by engaging and connecting homeless Veterans with healthcare and other needed services. HCHV programs target chronically homeless Veterans, especially those with serious mental health diagnoses and/or substance use disorders, and provide outreach, case management and community based residential services to ensure that Veterans have access to programs that provide quality housing and services that meet the needs of these special populations.

# Information on Entitlements

## Income Supports: Federal Level

### Supplemental Security Income (SSI-Title XVI)

Supplemental Security Income (SSI-Title XVI) is a federal government income supplement is for those who meet the Social Security Administration's (SSA) requirements for financial need due to disability, blindness, or age, and have no substantial history of employment. If you are found eligible for SSI, you are automatically eligible for Medical Assistance.

### Social Security Disability Insurance (SSDI-Title II)

Social Security Disability Insurance (SSDI-Title II) is a federal government income support is also for those who have met eligibility requirements for disability but is based on the amount and recency of one's past earnings. Benefits from a spouse's record can be granted to a disabled widow over age 50, even if the widow has never been employed. Individuals who are disabled prior to age 18 may be able to draw on a disabled, deceased, or retired parent's claim indefinitely.

For both entitlements, there is a complex application process and several eligibility requirements that must be met. The application process begins by contacting the local Social Security Office located at 828 Airpax Road Suite 500, Cambridge, Maryland 21613, visiting the website: [www.ssa.gov/ssi](http://www.ssa.gov/ssi), or calling 410-228-8811 or 1-800-772-1213 to request full information as well as forms to be mailed to you, and to schedule an appointment.

Information that you will need to submit:

- ❖ Original social security card and proof-of-age documents (no copies accepted).
- ❖ Full medical information including name, address and phone number of all physicians, hospitals, clinics, that have provided treatment. This is needed to document your disability.
- ❖ Summary of employers and type of work performed during the previous 15 years.
- ❖ Copy of the previous year's W-2 form from any employment.
- ❖ Proof of marriage if the spouse is applying.

It is recommended that the completed application and all accompanying and subsequent documentation be hand delivered to the Social Security office rather than mailed. You should request a receipt or some documentation from SSA. If applying for SSI, you will also need full information regarding financial assets: bank accounts, stocks, bonds, trust accounts and burial accounts or trusts. If you are living with family who help to support you, the monetary award will be less. Families are often contacted regarding how much support they provide. If a recipient of SSI obtains employment, Social Security must be notified immediately.

Social Security considers many factors in making awards, including ability to work and diagnosis. Some diagnoses qualify a person automatically; others require substantial documentation and may require a physical examination by a physician under contract with the Social Security Administration. The process of determining your disability is the same for SSI and SSDI. The process takes approximately 120 days and will include consideration of your ability to work in jobs other than the kind you may have done prior to becoming disabled.

**SOAR**, Supplemental Security Income (SSI) / Social Security Disability Benefits (SSDI) Outreach Access and Recovery, is a national program designed to increase access to Social Security Insurance (SSI) / Social Security Disability Insurance (SSDI) for adults who are experiencing or at risk of homelessness and have a mental illness, medical impairment, and/or a co-occurring substance use disorder. Local agencies that have SOAR trained staff include Alliance, Inc., Chesapeake Voyagers, Inc., Crossroads Community, Inc., Community Behavioral Health, Mid Shore Behavioral Health, Inc., the Neighborhood Service Center, and St. James Zion Church. [Click here for more information](#) or **contact:** Yvette Hynson, SOAR Case Specialist, 410-770-4801 ext. 312, yhynson@midshorebehavioralhealth.org

## Maryland Medical Care Programs

### Medicare

Medicare is an insurance program that pays medical bills for people who are at least 65 years old, or who are disabled. It is available to people who receive Social Security benefits regardless of how much money they have. It pays medical bills with money from the Social Security Trust Fund, which most people pay into while they work. Retired and disabled people pay a monthly insurance premium for Medicare Part B. This is usually taken out of their Social Security check before they get the check.

If you are elderly and only applying for assistance with paying your Medicare premiums, co-payments, or deductibles, you may apply at your LDSS for the Qualified Medicare Beneficiary (QMB) or Specified Low-Income Medicare Beneficiary (SLMB) Program. QMB/SLMB applications may be filed by mail or in person. To receive an application, call your Local [Department of Social Services](#) or the [Area Agency on Aging \(AAA\)](#).

## Medicaid (Medical Assistance) Program

The Maryland Department of Health provides Medical Assistance, also called Medicaid (MA), coverage to individuals determined to be categorically eligible or medically needy. Medicaid coverage is automatically given to individuals receiving certain other public assistance, such as Supplemental Security Income (SSI), Temporary Cash Assistance (TCA), or Foster Care. Effective January 1, 2014, Medicaid covers more adults ages 19 to 64, whether they have children or not. To qualify for Medicaid coverage through Maryland Health Connection, you must be under age 65, be a U.S. citizen or a qualified alien who has lived in the U.S. for five or more years and be a resident of the state of Maryland. Medicaid is also expanding to cover former foster children under age 26 who left the foster care system on their 18th birthday. Former foster care children do not have to meet income limits, they qualify because of their status as former foster care children. To apply for Medical Assistance, you can apply through Maryland Health Connection by calling 1-855-642-8572 or going to your local health department or department of social services.

## Employed Individuals with Disabilities (EID)

Employed Individuals with Disabilities provides Medical Assistance for people with disabilities who work with a monthly premium based on income.

## Income Supports: Federal Level

### Public Assistance for Adults

Public Assistance for Adults is designated for needy adults without children who reside in Residential Rehabilitation Programs (RRPs) funded by the Public Behavioral Health System. Yearly re-application is necessary. Apply with your Local [Department of Social Services](#).

### Transitional Emergency Medical and Housing Assistance (TEMHA)

Transitional Emergency Medical and Housing Assistance (TEMHA) provides essential medical, housing, and other services to low-income disabled adults who are ineligible for other categories of assistance. Apply with your Local [Department of Social Services](#).

### Temporary Cash Assistance for Families with Dependent Children (TCA)

Temporary Cash Assistance (TCA) for Families with Dependent Children – is an income support program administered by the state through the [Department of Social Services](#). This time-limited program provides temporary cash assistance to needy families with dependent children. To be eligible, families must cooperate with child support, participate in work activities, and comply with substance-related provisions.

## Energy Assistance, SNAP, WIC Program

Energy Assistance, Supplemental Nutrition Assistance Program (SNAP), and [Women, Infants and Children \(WIC\) Program](#) are programs which offer specific, limited support with varying eligibility requirements. Information regarding Energy Assistance can be obtained through your local [Office of Home Energy Programs \(OHEP\)](#) and SNAP Benefits can be obtained through your local [Department of Social Services](#). The WIC program provides supplemental foods, health care referrals, and nutrition education for low-income pregnant, breast feeding, and non-breast-feeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk. This program can be accessed through the local Health Department.
