

No. 24

~~PROPOSED~~ AMENDMENT TO TITLE 18, QUEEN ANNE'S COUNTY CODE

1

Subpart 4 - Supplemental Uses

Section 18-1-58. Electric Transmission Lines

(9) (i) Except as provided herein, all new power lines intended to transmit electric power (whether designed to carry a voltage less than or in excess of 69,000 volts) shall be constructed by the public utility company under, along, or on public roadways within Queen Anne's County.

(ii) Except as provided herein, replacement of existing power lines (whether designed to carry a voltage less than or in excess of 69,000 volts), or sections thereof with a linear distance of 1000' or greater, shall be replaced by the public utility company with power lines under, along, or on public roadways within Queen Anne's County.

(iii) (4) The County Commissioner of Queen Anne's County may consent to the construction of new or replacement overhead power lines provided the public utility company submits evidence satisfactory to the County Commissioners that its rate structure to electric consumers will be substantially affected by the construction of power lines under, along or on public roadways or that necessary modifications to its rate structure cannot be approved by the Public Service Commission. In no event, however, may the County Commissioners consent to the construction of new or replacement power lines that will include supporting poles that are to be located within 20' of an intersection of any public roadways.
